Issues:

Energy Probe is materially affected as its members and supporters are customers of the Applicant. In particular, its members and supporters would have benefitted from earnings sharing, had there been any earnings eligible for sharing with customers. Energy Probe believes that there should have been earnings eligible for sharing with customers and would like to examine the reasons why there are none.

Policy Interests:

Energy Probe does not have any policy interests in this proceeding.

Hearings:

Energy Probe does not have a reason for having a specific form of hearing.

Evidence:

Energy Probe does not intend to file evidence.

Coordination with Other Intervenors:

Energy Probe intends to co-ordinate with other intervenors to avoid any potential duplication where several intervenors ask same or similar interrogatories. Energy Probe intends to share drafts of interrogatories and submissions with other intervenors.

Cost Awards:

Energy Probe is a non-profit organization which relies on individual donations to help protect the public interest. Without the prospect of an award of costs, Energy Probe's ability to participate in OEB proceedings would be very limited. Energy Probe applies for recovery of its reasonably incurred costs in the course of its intervention in this proceeding. Energy Probe's members and supporters are customers of the Applicant and eligible for an award of costs according to section 3.03(a) of the Practice Direction. Energy Probe has participated in many past natural gas and electricity proceedings in Ontario, including consultations, rate cases, and other processes and hearings, and has been found to be eligible to be paid its reasonably incurred costs in all of those proceedings.

Language Preference:

Energy Probe does not intend to participate using the French language.
