Dear Ms. Marconi

**Re: Enbridge - Ontario Line – Overlea Station Relocation Project  
EB-2024-0141**

I am writing on behalf of Environmental Defence in response to Enbridge's expressed intention to apply for an exemption for this project under s. 95(1) of the *Ontario Energy Board Act, 1998* ("OEB Act").

Environmental Defence believes a hearing is important in this case to explore the issues set out in its intervention request. It is unclear why Enbridge believes a special exemption is warranted. We therefore ask to be provided with a copy of Enbridge's exemption application and an opportunity to provide submissions in reply. This would both allow Environmental Defence an opportunity to respond to Enbridge's argument and provide the OEB with a different perspective on whether the exemption is warranted.

Yours truly,

Kent Elson
