RE: Nomination for Working Groups

Please consider this letter to be a formal nomination request for both Stream 1 and Stream 2 Working Groups as referenced in the Board's letter of July 19, 2024 on the above referenced subject. The nominated individual is Colin Anderson, President and CEO of the Association of Power Producers of Ontario (APPRO).

APPRO is well known to the OEB. APPRO acts on behalf of its members, which includes Ontario electricity generators, but also includes entities that own and operate storage facilities and distributed energy resources. APPRO provides them with effective advocacy on critical electricity policies and expertise on regulatory matters that affect the business interests and operations of its members.

APPRO has a justifiable interest in Stream 1, since it deals with integrating resources, specifically energy storage and DERs. APPRO represents members who own resources in both categories.

Similarly, APPRO has a justifiable interest in Stream 2, since it deals with cost allocation policies for new or modified connections, a topic that is of concern to all of APPRO's members.

Please advise if any additional information is required. APPRO appreciates the Board's consideration in this matter.

Best Regards,

A handwritten signature in blue ink, appearing to read 'Colin Anderson', written over a light blue horizontal line.

Colin Anderson
President and CEO, APPRO
