EB-2024-0111 Enbridge 2024 Rebasing – Phase 2
Pollution Probe Letter for HRAI Motion

Dear Ms. Marconi:

In accordance with OEB direction, Pollution Probe would like to express our general support for the motion brought by the Heating, Refrigeration and Air Conditioning Institute of Canada (HRAI). The information requested is relevant to Issue 27 and Pollution Probe supports an open and transparent record of information in this proceeding.

There is a lack of information, clarity and coordination pertaining to Enbridge (regulated and unregulated) activities relevant to several topics on the Issues List, including Issue 27. Setting clear expectations now in the process will reduce delays, promote an efficient process and ensure that a complete and transparent public record is available for this proceeding.

Respectfully submitted on behalf of Pollution Probe.
