Dear Clement Li:

**Re: Building Owners and Managers Association (BOMA) Request for Intervenor Status and Cost Eligibility  
Enbridge Gas Inc. (Enbridge Gas) Application for Integrated Resource Planning (IRP) Pilot Projects  
Ontario Energy Board File Number: EB-2022-0335**

This letter is in response to your letter to the Ontario Energy Board (OEB) dated August 14, 2024, filed on behalf of the Building Owners and Managers Association (BOMA), requesting late intervenor status and cost eligibility in the above proceeding.

In its late intervention request, BOMA stated that it wishes to participate in the upcoming Technical Conference and all subsequent stages of this proceeding. BOMA believes the scope of this proceeding has changed significantly as a result of the OEB's Rebasing Phase 1 Decision, the removal of the Parry Sound Pilot Project, and the modification of the Southern Lake Huron Project. The outcome of this proceeding is significantly relevant to BOMA's primary policy interests, which include energy transition, electrification, and conservation and demand management.

Enbridge Gas did not object to BOMA's late intervention request.

BOMA is approved as an intervenor and is eligible to apply for an award of costs under the OEB's [Practice Direction on Cost Awards](#). An updated list of participants in this proceeding is attached to this letter.

Yours truly,

Nancy Marconi  
Registrar
