Subject: RE: EB-2024-0063 - Cost of Capital - EDA/Nexus Responses to Interrogatories

Hello Sarah

I have one more change. As per my August 15, 2024 email to the Experts, OEB staff encouraged parties to use the following format for their responses to interrogatories.

N-M2-5-OEB Staff-1

- N = Interrogatory Responses Exhibit
- M2 = Expert Report being addressed (e.g., Concentric)
- 5 = Issue # (e.g. short-term debt rate)
- OEB Staff = Party asking the interrogatory (e.g., OEB staff)
- 1 = IR#

Perhaps EDA/Nexus could include a statement in its upcoming letter to the OEB (as per my 4:26 pm email), that its responses should have referenced the "N" exhibit in the IR responses.

Thank you

Hello Sarah

Can you please write a letter to the OEB, outlining the following:

1. Although M3-0-SEC-64-c Navigant's Report "Review of the Electricity Tariffs for the Israel Electric Company" is marked "confidential" in the footer, Nexus has received permission to post it publicly.
2. Please provide a response to M3-5-OEB Staff-35, or otherwise indicate why a response was not filed.

Thank you
