Dear Ms. Marconi,

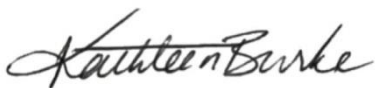

**EB-2024-0216 – Chatham x Lakeshore Limited Partnership (CLLP) – 2025-2029 Transmission Revenue Requirement Application – In-service Date of Chatham to Lakeshore Line**

Further to Exhibit B-02-01 page 3 of CLLP's 2025-2029 revenue requirement application (the Application) where CLLP stated it would update its forecast in September to advise whether or not construction-related risks related to in-servicing the assets have materialized, Hydro One Networks Inc. on behalf of CLLP is writing to advise that the Chatham to Lakeshore line will be in-serviced approximately three months ahead of the original application in-service date of December 2024. Total project costs are trending slightly under CLLP's as-filed application due to risks not materializing and CWIP savings.

CLLP proposes to provide updated evidence with respect to the above as part of its interrogatory responses in this proceeding.

An electronic copy of this letter has been submitted using the OEB's Regulatory Electronic Submission System.
