

NOTICE OF A RATE HEARING

Burlington Hydro Inc. has applied to increase its electricity distribution rates effective January 1, 2025

The requested rate increases are set using an OEB-approved formula which is tied to inflation and other factors intended to promote efficiency. If the application is approved as filed, a typical residential customer and a typical general service customer of Burlington Hydro Inc. would see the following monthly bill increase:

| Rate Class | January 2025 |
|---------------------------------|------------------|
| Residential 750 kWh | \$1.22 per month |
| General Service less than 50 kW | \$2.15 per month |

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed increases.

Burlington Hydro Inc. has also requested incremental capital funding for an externally driven and non-discretionary System Access project.
