Dear Ms. Walli,

Re: EB-2008-0219 Notice of Application Enbridge Gas Distribution Inc. Rates for 2009

Ontario Energy Savings L.P. ("OES") is a large retailer of natural gas with affiliates that operate in numerous jurisdictions throughout Canada and the United States. In Ontario, OES provides more than 500,000 customers with energy services. As a result, issues set out for this consultation are directly relevant to OES. OES wishes to be recognized as an intervenor in the proceeding in the English language and will not be seeking an award of costs. OES does not have a preference for either a written or oral hearing. OES does not have any comment regarding the advisability of the Board's proceeding with Enbridge's request for two-phased approach to the review of the application. The information for the purposes of service and delivery of documents in the proceeding are outlined below:
