Dear Ms. Marconi

**Re: Enbridge – Overlea Station Relocation Project
EB-2024-0250**

I am writing on behalf of Environmental Defence to propose a process to resolve this application as expeditiously as possible. Environmental Defence agrees with Enbridge and Metrolinx that it is important to avoid any potential delays of the Overlea Station project. We believe the most effective way to achieve that would be for Enbridge to answer the attached interrogatories as soon as possible. If those answers can be provided within a week's time (by October 4th), Environmental Defence would be in a position to support the exemption application or provide any relevant submissions by October 11, 2024 if not sooner.

We understand that we are providing these interrogatories even before an initial procedural order and that this is not the normal course of events. We have taken this proactive step in an attempt to expedite the process and avoid any potential delay to the transit project while also ensuring an appropriate examination of whether an exemption is warranted.

Yours truly,

Kent Elson
