Environmental Defence has not been denied intervention status in any proceeding in the last 24 months.

Issues:

1. Whether the disposition and recovery of the relevant deferral and variance account amounts are appropriate; and

2. Whether the proposed \$60 million one-time interim deferral disposition is appropriate.

Policy Interests:

Environmental Defence's interest in this proceeding is in promoting both the public interest in environmental protection and the interests of consumers whose energy bills can be reduced through measures that lower both costs and environmental impacts.

Hearings:

A written hearing is likely sufficient.

Evidence:

Environmental Defence does not intend to file evidence in this proceeding.

Coordination with Other Intervenors:

It is difficult to speak to coordination without knowing which organizations will intervene in this case. However, in other OEB proceedings, ED has coordinated with other intervenors as possible and appropriate, and would do the same in this proceeding.

Cost Awards:

Environmental Defence is eligible for a cost award primarily under s. 3.03(b) of the Practice Direction as it primarily represents an interest or policy perspective relevant to the Board's mandate and to the proceeding for which cost award eligibility is sought, namely environmental and climate protection. In addition, with respect to s. 3.03(a) of the practice direction, Environmental Defence also represents the interests of consumers whose energy bills can be reduced through measures that lower both costs and environmental impacts.

Language Preference:

Environmental Defence does not intend to participate in French.
