ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act*,
1998, S.O. 1998, c. 15, Sched. B, as amended.

AND IN THE MATTER OF an application by Enbridge
Gas Distribution Inc., for an exemption from sections
2.2.2 and 2.2.4 of the *Affiliate Relationships Code for
Gas Utilities*.

**INTERROGATORIES OF
CANADIAN MANUFACTURERS & EXPORTERS ("CME")
TO ENBRIDGE GAS DISTRIBUTION INC. ("EGD")**

1. CME would like to obtain a better understanding of the history of the Enbridge Ontario Wind Power LP ("Wind Power") project to generate electricity from its 181.5 MW wind turbine facility located in Kincardine, Ontario. In this context:

- (a) Is Wind Power's turbine facility in Kincardine the result of the two projects awarded by the Ontario Ministry of Energy to Enbridge Inc. and Leader Capital Corp under its Renewable Energy Supply Request for Proposals in or about November 2005?
- (b) If the answer to (a) is yes, please explain when and how Enbridge Inc. transferred its interests in the project to Wind Power.

2. It is CME's understanding that Wind Power has executed at least one Electricity Purchase Agreement with the Ontario Power Authority ("OPA") for the power generated from the project. Please confirm the date(s) that the Electricity Purchase Agreement(s) was/were executed with the OPA.

3. When did Wind Power learn that its operating procedures must comply with the Independent Electricity System Operator ("IESO") requirements, including the need to have operational control personnel available 24/7 to respond to IESO communications within 5 (five) minutes?

4. When did Wind Power first discuss with either Enbridge Inc. or EGD the possibility that EGD provide it with the Control Services at issue in this application? If any PowerPoint presentations or internal memoranda were prepared on this issue, please produce them.

5. At question 5 of the Interrogatories submitted by counsel to the Consumers Council of Canada ("CCC"), you were asked if EGD and Wind Power have executed a Service Level Agreement ("SLA") pertaining to the arrangement. If EGD and Wind Power have not executed an SLA pertaining to this arrangement, please explain why not. Further, if an SLA has not been executed, does EGD expect to execute an SLA with Wind Power? If so, when?
