**EB-2024-0200 St. Laurent Project Leave to Construct
Pollution Probe Technical Conference Estimate**

Dear Ms. Marconi:

Procedural Order No.3 was issued at 4:46 PM October 29, 2024 indicating that two of the Enbridge external consultants (Posterity and Integral) that created evidence in support of the application would be made available for clarification questions via the Technical Conference. As noted in Pollution Probe's earlier correspondence, Pollution Probe understood that Enbridge external consultant witnesses would not be made available by Enbridge and therefore time related to external consultants was excluded from the Technical Conference estimate by Pollution Probe.

Pollution Probe has segmented the questions for the two Enbridge external consultants added by the OEB and intends to use 10 minutes for the Contractor Panel. This has already been communicated to OEB Staff during Day 1 of the Technical Conference and will result in the following adjustment.

Original Estimate = 150 minutes
Consultant Panel = (10 minutes)
PP Day 2 Estimate = 140 minutes (Updated)

Respectfully submitted on behalf of Pollution Probe.
