ERTH Power 2025 Rate Application

ERTH Power Corporation currently has its 2025 IRM rate application for May 1, 2025, before the Ontario Energy Board for approval.

If the application is approved as filed, a typical residential customer and a typical general service customer of ERTH Power would see the following increase:

| Rate Class | Main Rate Zone | Goderich Rate Zone |
|--|------------------|--------------------|
| Residential (750 kWh) | \$1.20 per month | \$1.27 per month |
| General Service less than 50kW (2,000 kWh) | \$1.86 per month | \$2.03 per month |

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

ERTH Power Corporation has also requested incremental capital funding to support the purchase of property, design, construction, and furnishing of a new administrative and operational facility. The bill increases in the table above do not include the impact of the requested incremental capital funding.
