Dear Nancy Marconi,

**Re: Enbridge Gas Inc. (Enbridge Gas or the Company)  
Ontario Energy Board (OEB) File No. EB-2024-0200  
St. Laurent Pipeline Replacement Project  
Additional Technical Conference Day for Integral Engineering and Posterity Group witnesses**

---

In accordance with Procedural Order No. 3 dated October 29, 2024, we are writing regarding the scheduling of the additional technical conference session that is being convened for parties to ask questions regarding the interrogatory responses pertaining to the work of Integral Engineering and Posterity Group.

Based on the experts' and parties' schedules and discussions the past two days, we confirm (as was indicated on the record at the end of the October 31 technical conference) that the agreed upon scheduling for this additional technical conference session is: November 13, starting at 1:30 p.m. Enbridge Gas understands that the intervenors who indicated they have questions for Integral or Posterity and saved some of their time allocations for this purpose are Environmental Defence, Pollution Probe and SEC, and that the time estimates for this additional session total about 2 hours.

Enbridge Gas asks that arrangements be made for this session to take place at the above date/time. Thank you for your assistance with the above scheduling.

Sincerely,

*Patricia Squires*
