Enbridge Gas Inc. has applied to increase its natural gas distribution rates

Enbridge Gas Inc. has applied to increase its natural gas rates effective April 1, 2025, to recover costs associated with meeting its obligations under the *Greenhouse Gas Pollution Pricing Act* and the regulations under the *Ontario Emissions Performance Standards*, as well as to recover other related account balances.

If the application is approved as filed, a typical residential customer of Enbridge Gas Inc. would see the following total annual increase:

EGD Rate Zone (2,400 m3)	\$70.84
Union South Rate Zone (2,200 m3)	\$63.83
Union North Rate Zone (2,200 m3)	\$64.10

For a typical residential customer, these increases include an annual bill increase arising from the 2025 carbon charges of \$68.71 (EGD) and \$62.98 (Union South and Union North); plus, a one-time charge of \$2.13 (EGD), \$0.85 (Union South) and \$1.12 (Union North) to recover the balances in the related deferral and variance accounts.

Other customers, including businesses, will also be affected. It's important to review the application carefully to determine whether you may be affected by the proposed changes.

The federal government's *Greenhouse Gas Pollution Pricing Act* establishes a carbon pricing program under which a natural gas utility in Ontario, such as Enbridge Gas Inc., is required to pay a carbon charge to the federal government on the volume of natural gas that it delivers to its customers, and on the volume of natural gas used in the operation of Enbridge Gas Inc.'s natural gas distribution system. The federal carbon charge came into effect on April 1, 2019, has increased annually on April 1st between 2020 and 2024 and will increase again on April 1, 2025.

The *Ontario Emissions Performance Standards* program is the Ontario government's carbon pricing system for industrial emitters that came into effect on January 1, 2022, and replaced the federal government's Output-Based Pricing System in Ontario.

AVIS D'UNE AUDIENCE SUR LES TARIFS

Exhibit A

Enbridge Gas Inc. a déposé une requête en vue d'augmenter ses tarifs de distribution du gaz naturel

Enbridge Gas Inc. a déposé une requête en vue d'augmenter ses tarifs du gaz naturel à compter du 1^{er} avril 2025 pour récupérer les coûts associés au respect de ses obligations en vertu de la *Loi sur la tarification de la pollution causée par les gaz à effet de serre* et des règlements pris en vertu des *normes de rendement à l'égard des émissions de l'Ontario*, ainsi que pour recouvrer d'autres soldes de comptes connexes.

Si la demande est approuvée telle quelle, la facture mensuelle d'un client résidentiel type d'Enbridge Gas Inc. augmenterait, dans l'ensemble, de la manière suivante :

Zone de tarification d'EGD (2 400 m³)	70,84 \$
Zone de tarification d'Union Sud (2 200 m³)	63,83 \$
Zone de tarification d'Union Nord (2 200 m³)	64,10 \$

Pour un client résidentiel type, ces augmentations comprennent une augmentation annuelle de la facture découlant de la taxe sur le carbone 2025 de 68,71 \$ (EGD) et 62,98 \$ (Union Sud et Union Nord), ainsi que des frais non récurrents de 2,13 \$ (EGD), 0,85 \$ (Union Sud) et 1,12 \$ (Union Nord) visant à recouvrir les soldes des comptes de report et d'écart connexes.

D'autres clients, notamment les entreprises, seront également touchés. Il est important d'examiner la requête attentivement afin de déterminer si vous serez concernés par les changements proposés.

La *Loi sur la tarification de la pollution causée par les gaz à effet de serre* (loi fédérale) établit un programme de tarification du carbone en vertu duquel une compagnie de gaz naturel en Ontario, comme Enbridge Gas Inc., est tenue de payer une taxe sur le carbone au gouvernement fédéral pour le volume du gaz naturel qu'elle livre à ses clients et pour le volume du gaz naturel utilisé dans le l'exploitation du réseau de distribution de gaz naturel d'Enbridge Gas Inc. La taxe fédérale sur le carbone est entrée en vigueur le 1^{er} avril 2019, a augmenté annuellement le 1^{er} avril entre 2020 et 2024, et augmentera à nouveau le 1^{er} avril 2025.

Le programme de *normes de rendement en matière d'émissions de l'Ontario* est le système de tarification du carbone du gouvernement de l'Ontario pour les émetteurs industriels. Il est entré en vigueur le 1^{er} janvier 2022, et a remplacé le Système de tarification fondé sur le rendement du gouvernement fédéral en Ontario.

ONTARIO ENERGY BOARD

IN THE MATTER OF the *Ontario Energy Board Act, 1998*, S.O. 1998, c. 15, Sch. B;

AND IN THE MATTER OF an application by Enbridge Gas Inc., for an order or orders for gas distribution rate changes related to compliance obligations under the *Greenhouse Gas Pollution Pricing Act*, S.C. 2018, c. 12, s. 186.

APPLICATION

1. Enbridge Gas Inc. (Enbridge Gas), the Applicant, was formed by the amalgamation of Enbridge Gas Distribution Inc. and Union Gas Limited on January 1, 2019 pursuant to the *Ontario Business Corporations Act*, R.S.O. 1990, c. B. 16. Enbridge Gas carries on the business of distributing, transmitting and storing natural gas within Ontario.
2. On June 21, 2018, the *Budget Implementation Act, 2018*, No. 1 received Royal Assent. Included in Part V is the *Greenhouse Gas Pollution Pricing Act*, S.C. 2018, c. 12, s. 186 (GGPPA). Under the GGPPA, a federal carbon pricing program (FCPP) applies in whole or in part to any province or territory that requested it or that did not have an equivalent carbon pricing system in place by January 1, 2019. On October 23, 2018, the federal government confirmed that the GGPPA would apply to Ontario.
3. Provinces or territories can submit their own carbon pricing systems to the federal government for approval, and, if approved, are not subject to Part 1 and/or Part 2 of the GGPPA.
4. On March 29, 2021, the federal government announced that, effective January 1, 2022, Ontario's carbon pricing system for industrial emitters, known as the Ontario Emissions Performance Standards (EPS) program, will replace the federal Output-Based Pricing System (OBPS) in Ontario. The GGPPA was amended on September 1, 2021 to

remove Ontario from Part 2 of Schedule 1 of the GGPPA, enabling the EPS to take effect in Ontario as of January 1, 2022.

5. In Ontario, the FCPP is composed of two elements: (i) a charge on fossil fuels (the Federal Carbon Charge) imposed on distributors, importers, and producers effective April 1, 2019, and increasing each year on April 1; and (ii) an EPS for prescribed industrial facilities effective January 1, 2022.
6. Enbridge Gas's operations as a natural gas utility in Ontario fall under the purview of the GGPPA and EPS Regulation, which result in the following costs being incurred that are tracked through OEB-approved deferral and variance accounts:
 - a. Incremental bad debt costs;¹
 - b. Customer-related Federal Carbon Charge costs for volumes delivered by Enbridge Gas to its residential, commercial, and industrial customers who are not covered under the EPS; and
 - c. Facility-related costs (Facility Carbon Charge) arising from Enbridge Gas's facilities and operation of its gas distribution system.
7. Enbridge Gas hereby applies to the OEB, pursuant to the *Ontario Energy Board Act, 1998*, S.O. 1998, c.15, Schedule B (the Act), for:
 - a. an order or orders allowing it to charge customers a Federal Carbon Charge on a volumetric basis, in the amount of the Federal Carbon Charge required to be paid by Enbridge Gas pursuant to the GGPPA, effective April 1, 2025;
 - b. an order or orders approving or fixing just and reasonable rates for all Enbridge Gas rate zones (EGD, Union Northeast, Union Northwest and Union South),² effective April 1, 2025, to allow Enbridge Gas to recover

¹ Refer to Exhibit C, Tab 1, Schedule 1 for more information on the incremental bad debt costs.

² Collectively, the Union Northeast, Union Northwest and Union South rate zones are referred to as the "Union rate zones".

- other costs (including Facility Carbon Charge costs) incurred in compliance with the GGPPA and EPS Regulation;
- c. an order or orders approving the 2023 balances for the FCPP-related deferral and variance accounts for all Enbridge Gas rate zones, as set out in Exhibit C and for an order to dispose of those balances, excluding the Customer Carbon Charge – Variance Accounts (CCCVAs), as early as the April 1, 2025 QRAM.³
8. Enbridge Gas further applies to the OEB for all necessary orders and directions concerning pre-hearing and hearing procedures for the determination of this application.
 9. This application is supported by written evidence that has been filed with this application and may be amended from time to time as circumstances may require.
 10. The persons affected by this application are the customers resident or located in the municipalities, police villages, Indigenous communities and Métis organizations served by Enbridge Gas, together with those to whom Enbridge Gas sells gas, or on whose behalf Enbridge Gas distributes, transmits, or stores gas. It is impractical to set out in this application the names and addresses of such persons because they are too numerous.
 11. Enbridge Gas requests that the OEB's review of this application proceed by way of written hearing in English.
 12. Enbridge Gas requests that all documents relating to this application and its supporting evidence, including the responsive comments of any interested party, be served on Enbridge Gas and its counsel as follows:

³ Refer to Exhibit C, Tab 1, Schedule 1 for more information on the proposal to defer disposition of the CCCVAs.
