**Re: Northern Ontario Wires Inc. – ED-2003-0018 – EB-2024-0046  
2025 Cost of Service (“COS”) Application Commitment Letter**

Northern Ontario Wires Inc. (NOW) is filing this letter in response to Commitment 1 from the Decision on Issues List dated November 11, 2024.

Based on recorded results up to October 31, 2024, NOW has not identified any material change in projections for the 2024 or 2025 periods for capital and OM&A results relative to what was forecast in the original application. The 2024 forecast in the original application considered actuals up to June 2024 along with any new information up to the end of July 2024.

We do note that the cost-of-service costs for this proceeding were included both in NOW’s forecast regulatory costs for 2024 as well as in NOW’s forecast regulatory costs for the 2025 test year (on an amortized basis per OEB Policy); NOW will update the affected chapter 2 appendices on December 2, 2024 as part of the interrogatory process.

Yours truly,
