Re: EB-2024-0036 - InnPower Corporation - Application for 2025 Rates

As per the letter dated November 29, 2024, InnPower Corporation provides the following information as requested:

- a) InnPower has reviewed the decision and accompanying draft Rate Order for accuracy and completeness.
 - One minor discrepancy has been noted in the OEB's Rate Generator file (***draft_dec_rate_order_InnPower_IRM Rate Generator Model_20241129***). The Sentinel Light Global Adjustment Rate Rider appears different in two places within the model.
 - Please note, in tab "20. Final Tariff Schedule" cell E182, the rate is specified as "0.0061", however in tab "21. Bill Impacts" cell I378, the rate is specified as "0.0062".
 - In InnPower's original submission file (***InnPower_Resp_OEB Staff Questions_2025_IRM_20241112***) these two numbers are aligned as "0.0062".
 - InnPower notes that the OEB file contains macros, which may have resulted in a rounding error when the model was amended by OEB Staff (for MicroFIT). Although minor, InnPower was inclined to bring it to the attention of OEB Staff.

- b) InnPower has no further comments and is satisfied with the EB-2024-0036 Decision and Rate Order.

Yours truly,
