Re: **EB-2024-0038: Lakefront Utilities Inc. 2025 Electricity Distribution Rate Application**

The OEB is in receipt of an application for 2025 electricity distribution rates (EB-2024-0038) made by Lakefront Utilities Inc. (Lakefront Utilities). Patrick Moran is one of the Commissioners assigned to this proceeding. Between 2004 and 2007, when Commissioner Moran was employed by Ogilvy Renault LLP (now Norton Rose Fulbright Canada LLP), he provided legal services to the Electricity Distributors Association (EDA) and Lakefront Utilities, and to Lakefront Utilities' CEO, Dereck Paul, at both the EDA and Lakefront Utilities.

The OEB has not identified any policy or regulation that would preclude Commissioner Moran from participating as a panel member in this proceeding. If any party objects to Commissioner Moran's membership on the panel, they are to advise the OEB by Wednesday, December 4, 2024, at 4:45 pm, in writing to the Registrar.

Yours truly,

Nancy Marconi
Registrar
