Dear Ms. Marconi:

**Re: EB-2024-0016 – Elexicon Energy Inc. (“Elexicon”) IRM  
Application - Draft Rate Order**

Pursuant to the OEB letter dated November 29, 2024, Elexicon has reviewed the draft of the OEB’s decision and rate order. Elexicon has identified the following minor corrections with respect to the draft decision and order.

On the Whitby Rate Zone Tariff, Elexicon notes there is a typo on the sheet for each rate class in reference to the the fixed and volumetric Rate Rider for Recovery of Incremental Capital (2023). It currently reads “Rate Rider for Recovery of Incremental Capital (2023) - effective until in effect from April 1, 2025, until the effective date of the next cost of service-based rate order.” This should read as “in effect from April 1, 2025, until the effective date of the next cost of service-based rate order”. Please remove ‘effective until’ at the beginning.

On the Retail Service Charges tariff sheet for the Whitby Rate Zone (“WRZ”), specifically page 9 of 9, the *Notice of Switch Letter* charge has not been updated for the 3.6% inflation factor. The charge on this tariff sheet should be \$2.42 (not \$2.34) consistent with the WRZ IRM Rate Generator Model (tab 18) and the Veridian Rate Zone Tariff.

On the Veridian Rate Zone Tariff, Elexicon notes that for each Sentinel Lighting rate class the reference to “per light” is missing for the Service Charge. It should read as “Service Charge (per light)” on the tariff sheet.

Thank you for your cooperation and diligence throughout this process.

Please contact me by phone at (905) 427-9870 x 2256 or by e-mail at [svetsis@elexiconenergy.com](mailto:svetsis@elexiconenergy.com) if you have any questions.
