Dear Donna Kwan:

**Re: Newmarket-Tay Power Distribution Ltd.  
Abeyance of Application to Consolidate Deferral and Variance Accounts  
OEB File Number: EB-2024-0309**

On October 21, 2024, Newmarket-Tay Power Distribution Ltd. (NT Power) filed an application for approval to consolidate deferral and variance accounts for its two rate zones, the Newmarket-Tay Rate Zone and the Midland Rate Zone.

On November 5, 2024, the OEB issued a letter stating that it had completed its preliminary review of the application and would begin processing the application.

On December 3, 2024, NT Power filed a letter with the OEB advising that it will revise and re-file the application to include a request to dispose certain Group 2 deferral and variance account balances. NT Power stated that it will re-file the revised application as soon as possible.

In accordance with the OEB's [Protocol for Adjusting Adjudicative Timelines](#), the OEB will place NT Power's application in abeyance as of December 3, 2024. The OEB will take the proceeding out of abeyance after it completes its preliminary review of the re-filed application and issues a letter indicating that it will begin processing the application.
