## **Issues:**

Pollution Probe represents a consumer and policy interest related to Burlington Hydro's 2026 Cost of Service Application. Burlington Hydro's application is specifically intended to meet City of Burlington energy consumers' needs in a cost-effective manner, while providing the foundation to accommodate the current and accelerating energy transition changes (including DERs). Pollution Probe and its partners (including the Clean Air Partnership) represent community efforts in alignment with the City of Burlington's Net Zero by 2050 target.

## **Policy Interests:**

Please see above.

## **Hearings:**

Pollution Probe supports Burlington Hydro's request for a written hearing.

## **Evidence:**

Pollution Probe does not intend to commission expert evidence. However, based on the issues outlined in the application Pollution Probe may provide relevant materials to the OEB during the proceeding. No specific approvals are required to enable this approach.

## **Coordination with Other Intervenors:**

Pollution Probe has been an active and valuable participant in OEB proceedings and will continue to coordinate its activities with impacted consumers, intervenors and other parties as appropriate.

## **Cost Awards:**

Pollution Probe respectfully requests your acceptance of this request to participate and confirmation that it will be eligible for its costs.

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects. Without the prospect of an award of costs, Pollution Probe's ability to participate in this proceeding would not be possible.

## **Language Preference:**

English
