Dear Ms. Marconi:

**Re: Enbridge Gas Inc. (“EGI”)**  
**2024 Rebasing Application – Phase 2**  
**Board File Number: EB-2024-0111**

We are counsel to the Association of Power Producers of Ontario (“APPrO”) in the above-noted proceeding. On May 29, 2025, the Ontario Energy Board (“OEB”) issued Decision and Order EB-2024-0111 directing cost eligible intervenors to file their cost claims with the OEB. APPrO’s cost claim has been prepared and filed through the OEB’s online cost claim filing system in accordance with section 10 of the OEB Practice Direction on Cost Awards.

APPrO participated reasonably in the process by focusing its involvement in the proceeding on issues directly relevant to its members. For example, once the majority of the issues of interest to APPrO members were resolved through the Settlement Proposal, APPrO minimized any further engagement in the proceeding. This ensured that its participation in the process would not unduly repetitive and was focused on relevant and material issues. This is evident in APPrO’s cost claim being significantly lower than many other interveners that filed cost claims in this proceeding, including interveners that joined the proceedings late.

Phase 2 of the proceedings involved a 4-day technical conference and 10 days of settlement conference. APPrO’s participation contributed to a better understanding by the OEB of the issues in the proceeding, and in particular storage and cost allocation. APPrO did not engage in conduct that tended to lengthen the process unnecessarily or engage in any inappropriate or irresponsible conduct.

As is evident from the attached timesheets, many of the time entries spanned multiple cost claim categories and cannot be easily separated. In such a case, time entries have been allocated to a single cost claim category.

Yours truly,

Colm Boyle
