Dear Ms. Walli:

Re: Union Gas 2009 Rate Adjustment;
Board File Number EB-2008-0220

The Board issued a Notice of Application today commencing a proceeding to determine the 2009 distribution rates for Union Gas Limited ("Union"). ECNG Energy L.P. ("ECNG") wishes to confirm its interest in participating as an intervenor in this proceeding.

The evolution of the electricity and natural gas markets in Ontario is of vital interest to ECNG and its clients - industrial, commercial and institutional corporations with over 10,000 end-use meter locations in Ontario, with many in the Union franchise area. Each of these consumers has access to reasonably-priced natural gas distribution services today. Any potential changes to these services and rates will have a significant impact on these corporations at their thousands of end-use locations.

We wish to receive all documents issued by all participants in this matter. Electronic delivery is acceptable.

A thorough review of Union's Application is necessary before we can determine our level of participation. It is our expectation that this will be a simple arithmetic adjustment to Union rates as per the approved incentive rate mechanism. If so, it would be our expectation that the proceeding could proceed via a written process.

ECNG will not be seeking costs in this proceeding.
