## ONTARIO ENERGY BOARD

**IN THE MATTER OF** the Ontario Energy Board Act, 1998, S.O. 1998, c. 15, Schedule B, as amended;

**AND IN THE MATTER OF** an application by Enbridge Gas Inc. pursuant to Section 36(1) of the *Ontario Energy Board Act, 1998*, S.O. 1998, for an order or orders approving its Demand Side Management Plan for 2026-2030.

### APPLICATION

1. Enbridge Gas Inc. (“Enbridge Gas” or the “Company”), was formed by the amalgamation of Enbridge Gas Distribution Inc. and Union Gas Limited, on January 1, 2019 pursuant to the *Ontario Business Corporations Act*, R.S.O. 1990, c. B. 16. Enbridge Gas carries on the business of selling, distributing, transmitting, and storing natural gas in Ontario and undertakes Demand Side Management (“DSM”) activities.
2. On November 15, 2022, the Ontario Energy Board (“OEB”) issued its Decision and Order for Enbridge Gas’s 2022-2027 DSM Plan Application (EB-2021-0002) (“Decision”). Within the Decision, the OEB approved a three-year DSM plan for Enbridge Gas effective from January 1, 2023 to December 31, 2025. The OEB also approved a Natural Gas DSM Framework (“DSM Framework”) effective on a going forward basis beginning January 1, 2023. The OEB’s Decision stated that the DSM Framework:<sup>1</sup>

...should be used going forward to guide the development of future ratepayer funded DSM activities. The OEB will consider future updates or revisions to the DSM Framework where necessary. The DSM Framework includes guidance related to the OEB’s expectations for the current 2023-2025 DSM Plan term, as well as the expectations, stakeholdering and planning processes that should be used to prepare the next DSM Plan, which the OEB expects Enbridge Gas will file in mid-2024.

---

<sup>1</sup> EB-2021-0002, OEB Decision and Order, November 15, 2022, p.16.

3. Accordingly, Enbridge Gas hereby applies to the OEB pursuant to Section 36 of the *Ontario Energy Board Act, 1998*, for an Order or Orders effective January 1, 2026 approving the Company's DSM Plan for the years 2026 to 2030.
4. Enbridge Gas further applies to the OEB for the following:
  - a. Approval of the DSM programs for the years 2026 to 2030, including:
    - i. Approval of the **Residential Program**, including the budget, scorecard, and shareholder incentive mechanism and amounts related thereto;
    - ii. Approval of the **Income Qualified Program**, including the budget, scorecard, and shareholder incentive mechanism and amounts related thereto;
    - iii. Approval of the **Commercial Program**, including the budget, scorecard, and shareholder incentive mechanism and amounts related thereto;
    - iv. Approval of the **Industrial Program**, including the budget, scorecard, and shareholder incentive mechanism and amounts related thereto; and,
    - v. Approval of the **Large Volume Program**, including the budget, scorecard, and shareholder incentive mechanism and amounts related thereto.
  - b. Approval of the DSM portfolio-level budgets for the years 2026 to 2030, including:
    - i. Approval of the **Evaluation, Measurement & Verification budget**;
    - ii. Approval of the **Process Evaluation budget**;
    - iii. Approval of the **System Maintenance and Improvements budget**;
    - iv. Approval of the **Regulatory and Stakeholdering budget**; and,
    - v. Approval of the **Portfolio Administration budget**.
  - c. Approval of the research and innovation budgets for the years 2026 to 2030, including:
    - i. Approval of the **Research, Development & Market Data budget**; and,
    - ii. Approval of the **Energy Innovation Fund**.

- d. Approval to include the **DSM budget in rates for each year of 2026 to 2030**, based on the associated methodology;
  - e. Approval for **deferred participant costs** for the Residential Building Beyond Code Offering and **budget carryover** for the Large Volume Direct Access Offering and the Energy Innovation Fund; and,
  - f. Approval of the proposed **modifications to the DSM Framework**.
5. As noted above, Enbridge Gas's current OEB-approved DSM plan ends December 31, 2025. In order for Enbridge Gas to maintain DSM program continuity on January 1, 2026 and into the 2026 program year, the Company respectfully requests final approval from the OEB for this Application by September 30, 2025.
  6. Enbridge Gas is providing a proposed procedural timeline that could be followed to meet a September 30, 2025 OEB decision date (Exhibit A, Tab 2, Schedule 2). Should the actual procedural timeline deviate materially from the proposed procedural timeline, Enbridge Gas expects there will be impacts to DSM program continuity for customers as of January 2026.
  7. The persons affected by this Application are the customers residing or located in the municipalities, police villages, and Indigenous communities served by Enbridge Gas, together with those to whom Enbridge Gas sells natural gas, or on whose behalf, Enbridge Gas distributes, transmits or stores natural gas. It is impractical to set out the names and addresses of all the customers because they are too numerous.
  8. Enbridge Gas requests that all documents relating to this Application and its supporting evidence, including the responsive comments of any interested party, be served on:
