Re: Natural Gas Application EB-2007-0077

Attention: Board Secretary

Dear Board Secretary *D 90/6*

Active Energy Inc. and Active Energy ULC understand that the Board may have some concerns with our application for 2 natural gas licenses with similar names and similar owners. Active has decided that it would be beneficial for both Active and our potential new customers that we conduct our natural gas residential and small commercial business under one entity Active Energy ULC. By way of this letter, Active Energy Inc. has formally requested that we cancel our application for the natural gas license under Active Energy Inc. (File Number EB-2007-0077). We would request to continue our application for our natural gas license under Active Energy ULC (File Number EB-2007-0078).

The application for the electricity license under Active Energy Inc (File Number EB-2007-0076) should continue in the form presently before the Board.

Please do not hesitate to contact the undersigned if there is any question or concerns.

Sincerely

A handwritten signature in blue ink, appearing to read 'Michael Stedman'.

Michael Stedman
