STATUS REPORT ON OPERATIONS OF CAT LAKE

Hydro One Networks Inc. (“Hydro One”) is providing this update to the Board in advance of the expiry on January 31, 2025, of the current Interim Distribution Licence for Cat Lake.

In a Decision and Order dated July 21, 2006 (EB-2006-0180), the Board issued an order (ED-2006-0181) deeming as distribution assets all the transmission assets owned by the Cat Lake Public Utility and issued then a three-month interim distribution licence to Hydro One. The Board ordered Hydro One to take possession and control of the deemed distribution assets owned by Cat Lake Power and the distribution assets in the Cat Lake community owned by the Ontario Electricity Financial Corporation (“OEFC”). Hydro One assumed possession and control of the assets covered by this order at 12:01 a.m. on August 14, 2006. The Board has subsequently amended the interim electricity distribution licence ED-2006-0181, and most recently extended it for a six-month term on July 31, 2024 (**EB-2024-0225**).

Hydro One Transmission and Hydro One Remotes are continuing to work through various transfer issues with Cat Lake and additional stakeholders. Once complete, Transmission intends to file an application to enable it to purchase certain transmission assets from Cat Lake Power. As part of this agreement, it will be proposed that the distribution service for the Cat Lake community be included in Hydro One Remotes Communities’ service territory. Despite on-going efforts, timing of the transaction is still uncertain.

This progress report updates the report that Hydro One filed on July 17, 2024. It covers the Cat Lake utility activities to date and provides financial results until December 31, 2024.

Tracking of Cost
