Ms. Kirsten Walli
Secretary
Ontario Energy Board
2300 Yonge Street, Suite 2700
Toronto, ON
M4P 1E4

Dear Ms. Walli:

**Re: Hydro One Networks Inc. / Thunder Bay Hydro Electricity Distribution Inc. Joint
Application to connect new Residential Service customer**

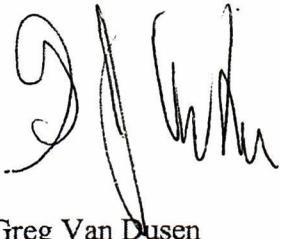

Hydro One Networks Inc. ("Hydro One") and Thunder Bay Hydro Electricity Distribution Inc. ("Thunder Bay Hydro") are writing to inform the Ontario Energy Board ("the Board") of the need to connect a new residential service customer within Hydro One's service territory to Thunder Bay Hydro's distribution system via a long term load transfer ("LTLT") arrangement.

Hydro One's customer located at 150 Copenhagen Road in Township of Shuniah requires one new 200 amp service immediately. The nearest Hydro One facility is 1.3 km away from the customer's property. For Hydro One to serve this customer, the existing Thunder Bay Hydro line would need to be rebuilt to accommodate joint use for a Hydro One line. The cost of this would be approximately \$304,728. Since Thunder Bay Hydro has existing facilities to this customer, the preferred option is to have Thunder Bay Hydro connect the customer at a minimal cost. To meet the imminent requirements of the customer, Hydro One and Thunder Bay Hydro are proceeding to put in place the necessary equipment to make the connection.

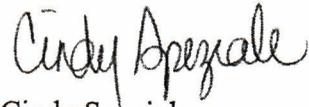

Hydro One and Thunder Bay Hydro continue to proceed with work to address LTLTs consistent with the Board's Amendments to the Distribution System Code, Board File No. – "EB-2009-0095 – Amendments to the Distribution System Code, Re: Timing for Elimination of Load Transfers" issued June 10, 2009.

Should you have any questions on this application, please contact Yoon Kim at (416) 345-5228 or via email at Yoon.Kim@HydroOne.com.

Sincerely,

Greg Van Dusen
