P.O. Box 2319  
Toronto, ON M4P 1E4

Dear Ms. Marconi:

**Re: PUC (Transmission) LP by its general partner PUC (Transmission) GP Inc.  
("PUCT")  
Ontario Energy Board ("OEB") Proceeding No. EB-2021-0088  
Transmission Licence Issuance**

We represent PUCT in the above-noted proceeding. On October 21, 2021, the OEB issued Decision and Order EB-2021-0088 approving PUCT's application for an electricity transmission licence. The OEB stated it would not issue the licence until PUC Transmission received leave to construct for the proposed transmission facilities from the OEB, at which time PUC Transmission could file with the OEB a complete description of the facilities to be included in schedule 1 of the licence.

On August 27, 2024, the OEB approved the leave to construct application by PUCT in Decision and Order EB-2023-0360.

In accordance with the OEB's order in EB-2021-0088, please find enclosed PUCT's description of its approved transmission facilities from EB-2023-0360 to be included in schedule 1 of the electricity transmission licence with the OEB. PUCT requests that the OEB issue its electricity transmission licence.

PUCT's application in EB-2021-0088 stated that Axium Infrastructure Canada II Limited Partnership ("**Axium**") was not currently an affiliate of PUCT but there was a letter of support in place where Axium agreed in principle to finance the costs incurred by PUCT for the approved transmission facilities, subject to the satisfaction of certain conditions. PUCT since entered into financing arrangements whereby Axium is now an affiliate of PUCT, as defined in the *Business Corporations Act*. Accordingly, PUCT used the OEB's form for "Streamlined Electricity Transmission Licence Renewal Application" to provide updated affiliate and contact information to the OEB. The affiliates listed in Appendix A and B are Ontario affiliates that have an OEB generation licence.

Please contact the undersigned with any questions.

Yours truly,

**BORDEN LADNER GERVAIS LLP**

**5. Specification of Transmission Facilities**

For the purposes of Schedule 1 of the Transmitter Licence, the description of the facilities PUC Transmission is constructing is the following:

- a. A 230 kV transformer station, the Tagona West TS, located at the easterly end of Yates Avenue within the city of Sault Ste. Marie; and
- b. Approximately 20 circuit km of 230 kV transmission lines within the city of Sault Ste. Marie connecting the Tagona West TS to Third Line TS.

**6. List of Code Exemptions**

6.1	<p>Please list all code exemptions included in Schedule 3 of the licence and identify any code exemptions that are no longer necessary and may be removed from the licence.</p> <p>PUCT requests an exemption from Section 6.1.3 of the Transmission System Code until the earlier of the date the Transmission Connection Procedures (“TCP”) have been approved by the OEB or December 31, 2025. Per the PUCT application approved by the OEB in EB-2023-0360, PUCT does not expect an in-service date of the transmission facilities described in section 5 above until Q2 2027 and no customers will be able to connect to the transmission line until this date. Moreover, the Transmission Connection Review (EB-2024-0126) has only recently commenced and PUCT should await the conclusion of the proceeding before submitting its TCPs.</p> <p>Similar to what the OEB approved in EB-2024-0223/0224, PUCT requests a reasonable period to complete the filing of the TCPs following issuance of its Transmission Licence and inclusion of the following term in Schedule 3 of its licence:</p> <p style="margin-left: 40px;"><b>The Licensee is exempt from section 6.1.3 of the Transmission System Code as per the Board’s Decision and Order in [X]. This exemption expires on December 31, 2025 or on the date that the Board approves the Licensee’s Transmission Connection Procedures, whichever is earlier.</b></p>
