

IN THE MATTER OF the Ontario Energy Board Act, 1998,
S.O. 1998, c.O.15, Sch. B;

AND IN THE MATTER OF an Application by Enbridge Gas
Distribution Inc. for an Order or Orders approving or fixing
rates for the sale, distribution, transmission and storage of
gas commencing January 1, 2009.

NOTICE OF INTERVENTION
OF THE
SCHOOL ENERGY COALITION

1. The School Energy Coalition applies for intervenor status in this proceeding.

General Interest of the Intervenor

2. The School Energy Coalition is a coalition established to represent the interests of all Ontario publicly-funded schools in matters relating to energy regulation, policy, and management. It is made up all seven of the major school-related organizations, representing all of the school boards, and all levels of school management, and through them representing the approximately 5000 schools and about 2 million students in Ontario. The primary goal of these organizations is to promote and enhance public education for the benefit of all students and citizens of Ontario.
3. The intervenor's members have a significant interest in the activities of regulated gas utilities and their affiliates in the province, due to the severe financial implications those activities have on school boards, their students and the people of the province of Ontario. Utility costs are one of the most significant cost pressures facing school boards. The cost of utilities to the intervenor's members, of which electricity and natural gas are the major components, is currently in excess of \$400 million, and has increased rapidly over the last ten years. To produce balanced budgets in the face of ever increasing utility costs, school boards have repeatedly been forced to cut essential programs and services to the detriment of the students and the public of the province of Ontario.

Issues to be Addressed

4. The School Energy Coalition is intervening:
 - a. to review and assess whether Enbridge has correctly applied the IRM formula, to review and assess the forecasts and budgets proposed as a basis for the IRM

calculation, and thus to review the rates proposed by the utility for its 2009 fiscal year as a result;

- b. to review the additional issues raised by Enbridge; and
 - c. generally to represent the interests of the school boards and their students in this proceeding in all major aspects of the application.
5. The foregoing summary is intended to be illustrative but not exhaustive. The School Energy Coalition will continue to review Enbridge's evidence as the record continues to develop, and will advise parties of any further areas of interest/concern prior to the alternative dispute resolution conference, or if applicable, thereafter.

The Intervenor's Intended Participation

6. The School Energy Coalition intends to participate actively in the interrogatory, issues scoping and settlement discussions phases of this proceeding in respect of the issues of concern to its members. The School Energy Coalition's participation in the balance of the proceeding will be dependent on the outcome of these pre-hearing phases. The School Energy Coalition may thereafter continue to be active in the case, undertaking cross-examination focused on areas of concern to its members, leading evidence if appropriate on those areas, and filing argument thereon.
