NOV 04 2008

ONTARIO ENERGY BOARD

Regarding increase in the
transmission rates

I am very opposed to this increase. Many people already have difficulty to pay their hydro bill, and this will cause a greater burden to citizens especially those on low income and middle class people. The increase in rates on January 1, 2009, will be over whelming without other increases.

Please give this matter deep thought

Sincerely
Marcel & Aline
Charron
