Toronto, ON M4P 1E4

Dear Ms. Marconi

**Re: EB-2025-0078– QRAM April 1st, 2025**

We are writing in response to Enbridge Gas Inc.'s ("EGI") amended QRAM application, dated March 18, 2025.

EGI is proposing not to adjust the facility carbon charge to reflect the changes to the federal carbon charge made by the Government of Canada on March 15, 2025.<sup>1</sup> EGI stated in that any variance would be captured in the Facility Carbon Charge Variance Account.

EGI suggested in the amended application that the amount of the facility carbon charge is not significant on consumers' bills, and that the recent changes to the federal carbon charge announced by the Government of Canada only changes a component of the facility carbon charge.<sup>2</sup>

Please fully describe any impediments to implementing the change to the facility carbon charge for this QRAM application. If the time needed to enact the change is among EGI's reasons, please fully describe the steps that EGI needs to take in order to appropriately change the facility carbon charge to reflect the new rates enacted by the Government of Canada, and an estimated time that EGI would need to take to complete that work.

<sup>1</sup> For instance, see Exhibit D, Tab 2, Schedule 1, p. 5 of 7.

<sup>2</sup> Exhibit B, Tab 4, Schedule 1, p. 4 of 8.

Yours very truly

A handwritten signature in blue ink, appearing to read "Scott Pollock". The signature is fluid and cursive, with the first name "Scott" and last name "Pollock" clearly distinguishable.

Scott Pollock
