Dear Ms. Marconi:

**Re: Enbridge Gas Inc. ("Enbridge Gas", or the "Company")
EB-2022-0335 – IRP Pilot Project Application
EB-2025-0124 – Review Motion of IRP Pilot Project Decision
Enbridge Gas Response to Environmental Defence**

We represent Enbridge Gas.

On April 15, 2025, we wrote to the OEB asking for confirmation about the scope of the Review Motion arising from the March 27, 2025 in the IRP Pilot Project Application (the "Decision"). We also requested a stay of aspects of the Decision.

On April 23, 2025, Environmental Defence wrote to the OEB objecting to the requests in our letter.

We do not seek to unduly expand the record for the Review Motion before the OEB issues a Procedural Order, and therefore we do not propose to respond to all of Environmental Defence's submissions. However, we do wish to answer one item.

Environmental Defence submits that Enbridge Gas has not made the case for the OEB ordering a stay of portions of the IRP Pilot Project Decision. We had hoped and assumed that our request for a limited partial stay would not be controversial. However, in the event that the OEB requires more detail and support for why a partial stay is appropriate, Enbridge Gas confirms that it can and will file appropriate further submissions, including a reply to any responding intervenor submissions.

Yours truly,

AIRD & BERLIS LLP

David Stevens
