Dear Ms. Marconi

**Re: City of Guelph Franchise Agreement
EB-2025-0058**

I am writing to notify the Board that eMERGE Guelph intends to bring a motion under Rule 27 requiring Enbridge to provide full and adequate responses to the Interrogatories requested on March 28, 2025.

The scope of the motion will depend on the Board's determination regarding intervenor evidence as permission to file intervenor evidence may eliminate the need for eMERGE to obtain answers to a number of interrogatories. We therefore propose to file the motion following the OEB's decision on intervenor evidence. We ask that the Board take this into account as part of the next procedural order.

eMERGE Guelph will comply with all procedural requirements under Rule 8 of the OEB's Rules of Practice and Procedure, as well as any future procedural orders once there is further clarity regarding potential gaps in the evidentiary record.

Yours truly,

Kent Elson
