#### 1 9.1 DEFERRAL AND VARIANCE ACCOUNTS OVERVIEW

#### 2 9.1.1 DVAs Requested for Disposition

- 3 Oshawa Power has included in this Application a request for approval for disposition of
- 4 Group 1 Deferral and Variance Account (DVA) balances including principal and interest
- 5 as at December 31, 2024 and forecast interest through to December 31, 2025. Oshawa
- 6 Power has also included a request in this Application for approval for disposal of Group
- 7 2 DVAs.
- 8 Oshawa Power has followed the OEB's guidance in the Accounting Procedures
- 9 Handbook (APH), the related documents to the APH, and the Report of the Board on
- 10 Electricity Distributors' Deferral and Variance Account Review Initiative (EDDVAR Report)
- 11 EB-2008-0046) for recording amounts in the deferral and variance accounts.

#### 12 9.1.2 Review and Disposition of Group 1 DVA Balances

13 In the OEB's Decision and Rate Order of Oshawa Power 2019 Incentive Rate-setting 14 Application (IRM) (EB-2019-0062) issued by the OEB on December 12, 2019, the OEB 15 directed Oshawa Power to carry out a review by way of external special purpose audit 16 engagement, at a minimum for accounts 1588 and 1589, for the period January 1, 2017 17 to December 31, 2019. The special purpose audit was to be completed prior to any 18 request for disposition of 1588 or 1589 deferral and variance accounts. Oshawa Power 19 extended the audit to all of its Group 1 accounts. No disposition was requested in the 20 2021 Cost of Service application (EB-2020-0048) or in the 2022 IRM application (EB-21 2021-0051). The audit was subject to delays and was completed in 2022. Detailed results 22 of the review and the Independent Auditor's Report can be found in Oshawa Power's 23 2023 IRM Application (EB-2022-0057). Oshawa Power requested disposition of Group 1 24 accounts accumulated during the period of 2017 through 2021 and the OEB approved 25 the disposition of a credit balance of \$2,839,501 as of December 31, 2021, including 26 interest projected to December 31, 2022 on a final basis. In Oshawa Power's 2024 IRM 27 Application and the OEB's Decision and Rate Order (EB-2023-0046), Oshawa Power 28 requested and was approved for the disposition of a debit balance of \$3,661,587 as of

- 1 December 31, 2022 which pertained to variances during the 2022 calendar year, including
- 2 interest projected to December 31, 2023 on a final basis. Per the 2025 IRM Application
- and the OEB's Decision and Rate Order (EB-2024-0049), Oshawa Power requested and
- 4 was approved for the disposition of Group 1 debit balance of \$1,026,132 as of December
- 5 31, 2023 including interest projected to December 31, 2024 on a final basis.

#### 6 9.2 ACCOUNT BALANCES

#### 7 9.2.1 DVA Balances and DVAs Requested for Disposal

- 8 Table 9-1 provides a list of Oshawa Power's outstanding DVAs as at December 31, 2024
- 9 plus principal and carrying charges forecast for the full year of 2025. This contains
- 10 descriptions and balances of Group 1 and Group 2 DVAs. Oshawa Power confirms that
- 11 it has used the DVAs in the manner as described in the APH. Oshawa Power confirms
- that it has not made any adjustments to any DVA balances that were previously approved
- 13 by the OEB on a final basis.

1

- 1 Oshawa Power is requesting disposition for the DVAs presented in the table above for a
- 2 total amount of \$598,085 debit balance. This is composed of Group 1 DVA balances of
- 3 \$(97,229) and Group 2 DVA balances of \$695,314. A detailed breakdown of the Group 1
- 4 balances requested for disposition by source can be found in Table 9-5 in section 9.2.6.
- 5 Group 1 Account analysis and review of balances requested for disposition can be found
- 6 in section 9.3 and Group 2 Accounts analysis and review of balances requested for
- 7 disposition can be found in section 9.4.
- 8 As described in section 9.3.7, 2023 and 2024 balances in Account 1595 are not eligible
- 9 for disposition in this Application. As described in section 9.4.4, Sub-Account Pension
- 10 Cost Differential Deferral is not proposing disposition because the cumulative actuarial
- 11 gains and losses have generally offset each other during the 2020 to 2024 period.
- 12 Section 9.5 provides an explanation of Group 2 accounts that are proposed for
- 13 disposition.

15

16

#### 9.2.2 Reconciliation of Accounts

Table 9-2 provides reconciliation of Oshawa Power's DVA balances.

Table 9-2: DVA Balances as of December 31, 2024 vs RRR Reported

- 1 Oshawa Power confirms the Group 1 balances as of December 31, 2024 presented in
- 2 the table above reconcile with Oshawa Power's 2024 Audited Financial Statements and
- 3 to the 2024 year-end balances for Electricity Reporting and Recordkeeping Requirement
- 4 (RRR) 2.1.7 Trial Balance as filed April 30, 2025 with exceptions noted below:
- 5 1580 RSVA Wholesale Market Service Charge
- 6 The variance in the amount of \$630,732 represents the balance of 1580 WMS Sub-
- 7 account CBR Class B. For reporting purposes, RRR 2.1.7 for RSVA Wholesale Market
- 8 Service Charge is the balance of the control account that includes the balance of 1580
- 9 WMS Sub-account CBR Class B.

#### 10 **1588 RSVA – Power**

Variance Description	Amount
Unbilled to actual revenue differences	\$(3,875)
Total	\$(3,875)

#### 11 1589 RSVA – Global Adjustment

Variance Description	Amount
Unbilled to actual revenue differences	\$4,348
Total	\$4,348

- 12 The Group 2 DVAs are based on the December 31, 2024, audited balances plus a
- 13 forecast for the net principal transactions to the end of December 31, 2025. Not all Group
- 14 2 DVAs have forecast net principal amount activity for 2025.

16

17

#### 9.2.3 DVA Continuity Schedule Model

2 Oshawa Power completed the 2026 DVA Continuity Schedule - Version 1.0 which 3 includes the continuity schedule of all DVA accounts, the cost allocations of each of the 4 DVA balances to the respective customer classes, and the computations for each of the 5 rate riders, and customer specific charges or credits. See Attachment 9-1 2026 DVA 6 Continuity Schedule and model "OPUCN 2026 DVA Continuity Schedule 1.0" for the 7 live excel spreadsheet file. Oshawa Power confirms that it used the load forecast data 8 found in the Exhibit 3 of the Application in the DVA Continuity Schedule, tab 4 billing 9 determinants, to calculate the DVA disposition rate riders in accordance with the OEB's 10 approved allocators.

#### 9.2.4 Energy Sales and Cost of Power Balances

The sale of energy represents a flow through of revenue to the IESO and the cost of power represents a flow through expense to the IESO. The respective components of energy sales and cost of power are presented in Table 9-3. Oshawa Power derives no regulated or economic profit or loss resulting from the flow through of energy revenue and expenses. Any temporary variances are included in the RSVA account balances.

**Table 9-3: Energy Sales and Cost of Power**

Difference Energy Revenue vs Cost of Power	\$(0)	\$42	\$0	\$0	\$(0)	\$0

Note: There was an immaterial out of balance of \$42 reported in 2020.

#### 9.2.5 Interest Rates

- 2 Carrying charges have been calculated on DVAs using the prescribed interest rates
- 3 published quarterly by the OEB and posted on its website. DVAs available for disposition
- 4 include carrying charges calculated to December 31, 2025. Oshawa Power has forecast
- 5 interest on the December 31, 2024 DVA principal balances calculated using the OEB's
- 6 currently prescribed rate of 3.64% and 3.16% for 2025 Q1 and Q2 respectively, and
- 7 Oshawa Power has used a rate of 3.16% to forecast interest for the remainder of the year
- 8 to December 31, 2025.
- 9 Table 9-4 provides the quarterly interest rates used to compute carrying charges.

10 Table 9-4: OEB Prescribed Interest Rates

Quarter	2020	2021	2022	2023	2024	2025
Q1	2.18%	0.57%	0.57%	4.73%	5.49%	3.64%
Q2	2.18%	0.57%	1.02%	4.98%	5.49%	3.16%
Q3	0.57%	0.57%	2.20%	4.98%	5.20%	
Q4	0.57%	0.57%	3.87%	4.98%	4.40%	

Note: 2025 Q3 and Q4 rates are not available at the time of Application

#### 11 9.2.6 Group 1 and Group 2 Balances Requested for Disposal

- 12 Table 9-5 below summarizes the mechanisms used in the disposition of Group 1 DVAs
- in 2026 and reconciles the total balances requested for disposition by source to the total
- balance of Group 1 DVAs being requested for disposal of \$(97,229). Oshawa Power is
- 15 proposing to dispose its Group 1 account balances over a one-year period, using the rate
- 16 rider calculated in the DVA Continuity Schedule.
- 17 Oshawa Power is requesting a total balance of Group 2 DVAs for disposal of \$695,314.
- 18 Oshawa Power is proposing to dispose its Group 2 account balances over a one-year
- 19 period using the rate rider calculated in the DVA Continuity Schedule. Group 1 and 2
- 20 balances for disposition are shown in Table 9-6.

2

#### Table 9-5: Group 1 DVAs Proposed Disposition by Source

Description	Group 1 DVA Excluding GA	Account 1589 GA	Total Group 1 DVAs
Total Balances requested for disposition	\$(1,310,461)	\$1,213,232	\$(97,229)
Balances to be disposed by source:			
Rate Rider for Group 1 DVA's (excluding GA and CBR Class B)	\$(1,571,330)		\$(1,571,330)
Rate Rider for Group 1 DVA's (excluding GA and CBR Class B) - Non WMP	\$(208,070)		\$(208,070)
Rate Rider for CBR Class B	\$463,779		\$463,779
Rate Rider for CBR Class B for Class A/B transitioning customers	\$5,161		\$5,161
Rate Rider for GA		\$1,157,805	\$1,157,805
Rate Rider for GA for Class A/B transitioning customers		\$55,428	\$55,428
Total Group 1 requested for disposition by source	\$(1,310,461)	\$1,213,232	\$(97,229)

Table 9-6: Group 1 and Group 2 Balances for Disposition

Description	Total
Group 1 DVAs (excluding GA and CBR)	\$(1,779,401)
Group 1 DVAs GA	\$1,213,232
Group 1 DVAs CBR	\$468,940
Group 2 DVAs	\$695,314
Total Group 1 and Group 2 for Disposition	\$598,085

#### 3 9.3 GROUP 1 ACCOUNT ANALYSIS

- 4 9.3.1 Account 1551: RSVA Smart Metering Entity (SME)
- 5 Account 1551 is used to record the difference between the amounts charged by the IESO
- 6 for Smart Meter Entity charges and the amount Oshawa Power billed to customers using
- 7 the OEB approved rates. Oshawa Power uses the accrual method.
- 8 Carrying charges were calculated using simple interest applied to the monthly opening
- 9 principal balance using the prescribed interest rates approved by the OEB.
- 10 Account 1551 Balances as at December 31, 2023 including forecast interest to December
- 11 31, 2024 were approved for disposition on a final basis in its 2025 IRM application.

- 1 Oshawa Power requests in this Application disposition of a credit balance of \$54,907 of
- 2 Account 1551 Smart Metering Entity Charge as a payment to customers, including
- 3 forecast interest to December 31, 2025. This represents balances that accumulated in
- 4 the calendar year 2024.

#### 5 9.3.2 Account 1588: RSVA – Power

- 6 Account 1588 is used to recover the net difference between the energy amount billed to
- 7 customers and the energy charged to Oshawa Power using the settlement invoice from
- 8 the IESO. Oshawa Power uses the accrual method.
- 9 Carrying charges were calculated using simple interest applied to the monthly opening
- 10 principal balance using the prescribed interest rates approved by the OEB.
- 11 Account 1588 Balances as at December 31, 2023 including forecast interest to December
- 12 31, 2024 were approved for disposition on a final basis in its 2025 IRM application.
- 13 Oshawa Power requests in this Application disposition of a credit balance of \$365,819 of
- 14 Account 1588 Power as a payment to customers, including forecast interest to
- 15 December 31, 2025. This represents balances that accumulated in the calendar year
- 16 2024.

#### 17 9.3.3 Account 1589: RSVA – Global Adjustment

- 18 Account 1589 is used to recover the net difference between the Global Adjustment (GA)
- 19 amount billed to non-RPP customers and the GA adjustment charge to Oshawa Power.
- 20 The differences for non-RPP Class B customers arise from Oshawa Power billing these
- 21 customers on GA First Estimate provided by the IESO and the IESO billing Oshawa
- 22 Power based on the final monthly GA rate.
- 23 Carrying charges were calculated using simple interest applied to the monthly opening
- 24 principal balance using the prescribed interest rates approved by the OEB.
- 25 Account 1589 Balances as at December 31, 2023 including forecast interest to December
- 26 31, 2024 were approved for disposition on a final basis in its 2025 IRM application.

- 1 Oshawa Power requests in this Application disposition of a debit balance of \$1,213,232
- 2 of Account 1589 GA as a collection from customers, including forecast interest to
- 3 December 31, 2025. This represents balances that accumulated in the calendar year
- 4 2024.
- 5 During 2024, one customer has transitioned from being a Class A to Class B Non-RPP
- 6 (Customer 1). Another customer transitioned from Class B Non-RPP to Class A
- 7 (Customer 2). Both customers have allocated GA amounts for the portion of the disposal
- 8 that relates to when these customers were Class B Non-RPP customers. Out of the
- 9 \$1,213,232 requested GA balance to be disposed, \$55,428 is allocated to the two
- 10 transition customers. Specific monthly charges for each customer are calculated in the
- 11 Continuity Workform (tab 6.1a GA Allocation) at \$76 and \$4,543 for customers 1 and 2,
- respectively. The monthly charges are requested to be disposed for a 12 month period.
- 13 Commodity Analysis (formerly GA Analysis) Workform
- 14 Oshawa Power has completed the 2026 Commodity Accounts Analysis Workform and
- 15 OEB-directed calculations, as set out in Attachment 9-2 and live excel file
- 16 2026 Commodity Accounts Analysis Workform 1.0 to support the claim for disposition
- 17 of Account 1589.
- 18 Oshawa Power confirms the following information:
- 1) The unresolved difference as a % of Expected GA Payments to IESO is less than
- 20 1%.
- 21 2) All Principal adjustments made to Accounts 1588 RSVA Power, and Account 1589
- 22 RSVA GA are detailed in the model in the Principal Adjustments tab.
- 23 a) All principal adjustments that were made in the 2025 GA Analysis Workform for
- 24 year 2023 have been reversed in the Principal Adjustments tab in the 2026
- 25 Commodity Accounts Analysis Workform, and in the 2026 DVA Continuity
- Schedule model.
- b) All new principal adjustments made in the 2026 Commodity Analysis Workform,
- are the only reconciling items for both Accounts 1588 and 1589 in the 2026 DVA
- 29 Continuity Schedule model.

- 1 3) The total activity in 2024 for Account 1588 RSVA Power is less than 1% of the total
- 2 power purchased in account 4705 Power Purchased.

#### 3 9.3.4 Disposition of Account 1580 Wholesale Market Services

- 4 Account 1580 is used to record the difference between the amounts charged by the IESO
- 5 for wholesale market services and the amount Oshawa Power billed to customers using
- 6 the OEB approved rates. Oshawa Power uses the accrual method.
- 7 Carrying charges were calculated using simple interest applied to the monthly opening
- 8 principal balance using the prescribed interest rates approved by the OEB.
- 9 Account 1580 Balances as at December 31, 2023 including forecast interest to December
- 10 31, 2024 were approved for disposition on a final basis in its 2025 IRM application.
- 11 Oshawa Power requests in this Application disposition of a credit balance of \$350,801 of
- 12 Account 1580 WMS (excluding CBR Class B) as a payment to customers, including
- 13 forecast interest to December 31, 2025. This represents balances that accumulated in
- 14 the calendar year 2024.

#### 15 Sub-account CBR Class A

- 16 Oshawa Power Class A customers pay the actual IESO billed amount for CBR Class A
- 17 based on their proportionate share of energy used during five coincident peaks during a
- 18 defined base period. Oshawa Power confirms that 1580 WMS sub-account CBR Class
- 19 A does not contain a balance as at December 31, 2024.

#### 20 Sub-account CBR Class B

- 21 As directed by the OEB, Oshawa Power has tracked CBR revenues and expenses for
- 22 Class B customers separately.
- 23 Oshawa Power requests in this Application disposition of a debit balance of \$468,940 of
- 24 Account 1580 sub-account CBR Class B as a collection from customers, including
- 25 forecast interest to December 31, 2025. This represents balances that accumulated in
- the calendar year 2024.

- 1 During 2024, one customer has transitioned from being a Class A to Class B Non-RPP
- 2 (Customer 1). Another customer transitioned from Class B Non-RPP to Class A
- 3 (Customer 2). Both customers have allocated CBR Class B amounts for the portion of the
- 4 disposal that relates to when these customers were Class B Non-RPP customers. Out of
- 5 the \$468,940 requested sub-account CBR Class B balance to be disposed, \$5,161 is
- 6 allocated to the two transition customers. Specific monthly charges for each customer are
- 7 calculated in the Continuity Workform (tab 6.2a CBR B Allocation) at \$7 and \$423 for
- 8 customer 1 and 2, respectively. The monthly charges are requested to be disposed for a
- 9 12 month period.

#### 10 9.3.5 Disposition of Account 1584: RSVA – Retail Transmission Networks

- 11 This account is used to record the net of the amount charged by the IESO, based on the
- 12 settlement invoice for transmission network services, and the amount billed to customers
- using the OEB Approved Retail Transmission Rate for network services. Oshawa Power
- 14 uses the accrual method.
- 15 Carrying charges were calculated using simple interest applied to the monthly opening
- principal balance using the prescribed interest rates approved by the OEB.
- 17 Account 1584 Balances as at December 31, 2023 including forecast interest to December
- 18 31, 2024 were approved for disposition on a final basis in its 2025 IRM application.
- 19 Oshawa Power requests in this Application disposition of a credit balance of \$298,938 of
- 20 Account 1584 as a payment to customers, including forecast interest to December 31,
- 21 2025. This represents balances that accumulated in the calendar year 2024.

#### 22 9.3.6 Disposition of Account 1586: RSVA – Retail Transmission Connection

- 23 This account is used to record the net of the amount charged by the IESO, based on the
- 24 settlement invoice for transmission connection services and the amount billed to
- 25 customers using the OEB Approved Retail Transmission Rate for connection services.
- 26 Oshawa Power uses the accrual method.

- 1 Carrying charges were calculated using simple interest applied to the monthly opening
- 2 principal balance using the prescribed interest rates approved by the OEB.
- 3 Account 1586 Balances as at December 31, 2023 including forecast interest to December
- 4 31, 2024 was approved for disposition on a final basis in its 2025 IRM application.
- 5 Oshawa Power requests in this Application disposition of a credit balance of \$715,073 of
- 6 Account 1586 as a payment to customers, including forecast interest to December 31,
- 7 2025. This represents balances that accumulated in the calendar year 2024.

## 8 9.3.7 Disposition of Account 1595: Disposition and Recovery/ Refund of

- 9 Regulatory Balances
- Account 1595 is used to record the disposition of DVA balances authorized by the OEB
- 11 for recovery in rates or refunds made to customers. Separate sub-accounts are
- maintained for principal and carrying charges approved for disposition, and interest on
- 13 the net principal amounts for each OEB Approved balances.
- 14 Disposition and Recovery/Refund of Regulatory Balances (2021)
- 15 As at December 31, 2024, Oshawa Power recorded an ending balance of \$(38,494)
- 16 principal and \$45,894 in interest for Account 1595 (2021). Oshawa Power forecast
- interest of \$(1,263) for 2025. Oshawa Power requests in this Application disposition of a
- debit balance of \$6,137 of Account 1595 (2021) as a collection from customers, including
- 19 forecast interest to December 31, 2025.
- 20 Disposition and Recovery/Refund of Regulatory Balances (2023)
- 21 As at December 31, 2024, Oshawa Power recorded an ending balance of \$225,959
- 22 principal and \$(396,677) in interest for Account 1595 (2023). Oshawa Power forecast
- 23 interest of \$7,411 for 2025. Oshawa Power is not requesting disposition of this balance
- as this account is not eligible for disposition in this Application.
- 25 Disposition and Recovery/Refund of Regulatory Balances (2024)
- 26 As at December 31, 2024, Oshawa Power recorded an ending balance of \$20,144
- 27 principal and \$330,080 in interest for Account 1595 (2024). Oshawa Power forecast

12

- 1 interest of \$661 for 2025. Oshawa Power is not requesting disposition of this balance as
- 2 this account is not eligible for disposition in this Application.

#### 3 9.4 Group 2 Accounts Analysis and Disposition

- 4 Oshawa Power last disposed of Group 2 accounts as part of its 2021 Cost of Service
- 5 application. Table 9-7 presents Oshawa Power's Group 2 account balances approved by
- 6 the OEB for disposition in the said application.

Table 9-7: 2021 OEB Approved Group 2 Balances

UsofA	Description	Closing Principal Balances as of Dec 31- 19 Adjusted for Dispositions during 2020	Closing Interest Balances as of Dec 31-19 Adjusted for Dispositions during 2020	2020 Projected Interest	Total Claim 2021 CoS (EB-2020-0048)
1508	Sub-Account - OEB Cost Assessment Variance	\$379,519	\$28,866	\$8,274	\$416,658
1508	Sub-Account - Pole Attachment Revenue Variance	\$(189,648)	\$(2,624)	\$(4,134)	\$(196,406)
1508	Sub-Account - Lost Revenue for Collection of Account and Reconnection Charges	\$178,633	\$750	\$3,894	\$183,277
1508	Sub-Account - Retail Service Charges Incremental Revenue	\$(12,778)	\$(72)	\$(279)	\$(13,129)
	PILs and Tax Variance for 2006 and Subsequent Years- Sub-account CCA Changes	\$(121,892)	\$(1,225)	\$(2,657)	\$(125,774)
1555	Smart Meter Capital and Recovery Offset Variance - Sub- Account - Stranded Meter Costs	\$(54,099)	\$(505)	\$(1,179)	\$(55,783)
Total		\$179,735	\$25,190	\$3,918	\$208,843

- 8 In this Application, Oshawa Power is seeking approval to dispose of Group 2 total
- 9 balances of \$695,314 as shown in Table 9-8 below. Oshawa Power is seeking recovery
- 10 for Group 2 account balances over a one-year period, using the rate riders calculated in
- 11 the DVA Continuity Schedule.

Table 9-8: 2026 CoS Group 2 Balances Requested for Disposition

		Closing Principal Balances as of Dec	Closing Interest Balances as of Dec	2025 Project	ed Balances	Total Claim 2026
UsofA	Description	31-24 Adjusted for Dispositions during 2025	31-24 Adjusted for Dispositions during 2025	Principal	Interest	CoS (EB-2025- 0014)
1508	Other Regulatory Assets, Sub-account ULO	\$16,825	\$1,042	-	\$552	\$18,419
1508	Other Regulatory Assets, Sub-Account GOCA	\$216,114	\$4,576	\$214,924	\$14,138	\$449,753

Total		\$131,577	\$(37,572)	\$578,033	\$23,275	\$695,314

- 1 The following sections provide details of each Group 2 account and the amounts
- 2 requested for disposition.

#### 3 9.4.1 Disposition of Retail Service Charges Related Accounts

- 4 Oshawa Power confirms that it has followed Article 490 of the APH relating to Retail
- 5 Service Charges and has zero balances in accounts 1518 and 1548.
- 6 In its Decision and Order on energy retailer service charges (EB-2015-0304), issued on
- 7 February 14, 2019, the OEB noted that electricity distributors are required to establish
- 8 two new variance accounts (1508 Other Regulatory Assets, sub-account Retail Service
- 9 Charges Incremental Revenue and 1508 Other Regulatory Assets, sub- account Retail
- 10 Service Charges Incremental Revenue Carrying Charges) effective May 1, 2019 in order
- 11 to track the difference between the revenue collected from the electricity distributor Retail
- 12 Service Charges (electricity RSCs) and the revenue collected when the updated
- electricity RSCs came into force on May 1, 2019. Oshawa Power's balances in these
- variance accounts are discussed under Disposition of Account 1508 Other Regulatory
- 15 Assets Sub-Account Retail Service Charges Incremental Revenue.

# 9.4.2 Disposition of Account 1592, PILs and Tax Variance for 2006 and Subsequent Years - Sub-account CCA Changes

- On July 25, 2019, the OEB released a letter titled Accounting Direction Regarding Bill C-
- 19 97 and Other Changes in Regulatory or Legislated Tax Rules for Capital Cost Allowance.
- 20 This letter discusses the government's Accelerated Investment Incentive (AII) which
- 21 provides for a first-year increase in capital cost allowance (CCA) deductions on eligible
- 22 capital assets acquired after November 20, 2018. The OEB expects Utilities to record the
- impacts of CCA rule changes in the appropriate account (Account 1592 PILs and Tax
- Variances) for the period November 21, 2018 until the effective date of the Utility's next
- 25 cost-based rate order.

16

17

- 26 As per Oshawa Power's 2021 Cost of Service Decision and Rate Order, Oshawa Power
- 27 received approval to dispose of the 2019 balances in this account including carrying

- 1 charges in the amount of (\$125,774). Oshawa Power did not seek disposition of 2020
- 2 balances opting to wait for audited balances prior to requesting disposition.
- 3 The following citation is from Oshawa Power's 2021 Cost of Service Decision and Rate
- 4 Order:

6

10

11

12

13

14

15

16

17

18

OPUCN agrees that the calculation of the balance in Account 1592 – PILs and Tax Variances-Sub-account CCA Changes will be on actual additions incurred where Accelerated Investment Incentive has been claimed and will include a tax gross-up at the tax rate of 26.5% and will be 100% refunded to ratepayers. OPUCN further agrees to use the same methodology when it seeks to dispose of the 2020 balances of this Sub-account.

Oshawa Power confirms that Account 1592 amounts related to 2020 balances have been appropriately calculated using the same methodology used for 2019 balances. Oshawa Power has recorded \$(449,209) of principal and \$(58,866) in interest to the end of December 31, 2024 representing 2020 AIIP Savings to customers. Oshawa Power has forecast balances for 2024 and 2025 AIIP Expense to customers resulting from the CCA impact for the AIIP phase-out period. Oshawa Power proposes disposal of \$(110,253) composed of \$(55,915) principal and \$(54,338) interest, as shown in Table 9-9 below.

**Table 9-9: Accelerated CCA Disposition Balance** 

Description	Principal	Interest	Total	Note
2020 CCA AllP Savings	-\$449,209	-\$73,600	-\$522,809	Actual
2024 CCA AllP Expense	\$123,667	\$10,419	\$134,086	Forecast
2025 CCA AllP Expense	\$269,627	\$8,844	\$278,471	Forecast
Total Balance requested for disposition	-\$55,915	-\$54,338	-\$110,253	

19 The calculation of principal balances for each tax year is outlined in Table 9-10 below.

#### **Table 9-10: Accelerated CCA Calculations**

2020 AliP Accelerated vs. no AliP

Class	AllP Additions	Proceeds of Disposition	Rate %	UCC for AllP	CCA AIIP	UCC no AliP	CCA no AllP	CCA Rates vs Claimed	Tax Rate		Grossed Up Tax Impact to 1592

- 2 Oshawa Power would continue to use Account 1592, in future, in the event that the
- 3 Federal or Provincial governments make changes to corporate income tax rates or
- 4 parameters underpinning Oshawa Power's 2026 PILS component of Distribution
- 5 Revenue.
- 6 9.4.3 Disposition of Account 1509 Impacts Arising from the COVID-19 Emergency
- 7 Oshawa Power confirms that Account 1509 does not contain a balance as at December
- 8 31, 2024. Oshawa Power is proposing to discontinue this account effective January 1,
- 9 2026.
- 10 9.4.4 Disposition of Account 1508 Other Regulatory Assets
- 11 This account includes one-time incremental costs or revenues for each of the following
- 12 sub-accounts of Account 1508 Other Regulatory Assets:

#### **Sub-account ULO Implementation Cost**

- 2 On March 2, 2023, the OEB issued a letter entitled "Accounting Order (001-2023) for the
- 3 Establishment of a Deferral Account to Record Impacts Arising from Implementing the
- 4 Ultra-Low Overnight (ULO) Regulated Price Plan Option" (EB-2022-0160). This letter sets
- 5 out the accounting order that establishes a generic deferral account for distributors to
- 6 track the revenue requirement impacts of their material costs of implementing the ULO
- 7 option.
- 8 Oshawa Power recorded incremental one-time implementation costs directly attributable
- 9 to the costs in implementing the ULO option. As at December 31, 2024, Oshawa Power
- 10 has recorded a debit balance of \$16,825 principal and \$1,042 in interest. Oshawa Power
- 11 forecast interest of \$552 for the full year 2025.
- 12 Oshawa Power requests in this Application disposition of a debit balance of \$18,419 of
- 13 Account 1508: Sub-account ULO Implementation Cost as a collection from customers,
- including forecast interest to December 31, 2025.

#### 15 Sub-account GOCA Variance Account

- 16 On October 31, 2023, the OEB issued its Decision and Order Getting Ontario Connected
- 17 Act Variance Account (EB-2023-0143) to establish a generic, sector-wide variance
- 18 account to record the incremental costs of locates arising from the implementation of
- 19 provincial legislation Bill 93 (the Getting Ontario Connected Act, 2022) with an effective
- 20 date of April 1, 2023.
- 21 Oshawa Power has followed the accounting entries as outlined in "Schedule A Electricity
- 22 Accounting Order" of the above Decision and Order resulting in the recording of
- incremental costs of locates for the period of January 1, 2024 to December 31, 2024. In
- 24 addition, Oshawa Power has forecast the incremental costs of locates for the period of
- 25 January 1, 2025 to December 31, 2025 using an estimated number of locates that closely
- 26 aligns with historical volumes and per unit costs per locate established for the period.
- 27 While the 2025 forecast amount has not been audited, it can be determined with
- 28 reasonable accuracy and Oshawa Power submits this balance to be disposed of in this
- 29 Application.

- 1 Table 9-11 GOCA Variance and Balance Calculation below provides an analysis of actual
- 2 locate costs for the period of 2021 to 2024, a forecast of locate costs for the 2025 calendar
- 3 year, Revenue Requirement related to locate costs approved in base rates escalated by
- 4 annual rate adjustments in Oshawa Power's IRM decisions and orders, and the resulting
- 5 balances recorded in OM&A Underground Locates Program, Account 4305 Regulatory
- 6 Debits and Account 1508 GOCA Variance Account.

#### **Table 9-11: GOCA Variance Account Balance Calculation**

#### Locate Costs Analysis 2021-2025

Locate Costs	2021 Actuals	2022 Actuals	2023 Actuals	2024 Actuals	2025 Forecast
Locate Costs	\$433,389	\$340,520	\$457,350	\$575,001	\$586,194
Number of locates	10,289	6,853	6,462	7,051	6,697
Unit cost per locate	\$42.12	\$49.69	\$70.78	\$81.55	\$87.53

#### Locate Costs approved in base rates 2021-2025

Revenue Requirement	2021 OEB Approved	2022 IRM	2023 IRM	2024 IRM	2025 IRM
IRM Inflation Factor		3.15%	3.55%	4.65%	3.45%
Locate Costs	\$321,070	\$331,184	\$342,941	\$358,887	\$371,269

#### **Locate Balances USoA Accounts**

Locate Costs	2021 Actuals	2022 Actuals	2023 Actuals	2024 Actuals	2025 Forecast
OM&A - Underground Locates Program	\$433,389	\$340,520	\$457,350	\$0	\$0
4305 - Regulatory Debits	\$0	\$0	\$0	\$358,887	\$371,269
1508 - GOCA Variance Account (Principal)	\$0	\$0	\$0	\$216,114	\$214,924
Total Locate Costs	\$433,389	\$340,520	\$457,350	\$575,001	\$586,194

#### 1508 - GOCA Variance Account Balance

Activity	Principal	Interest	Total	Note
2023 Closing Balance	\$0	\$0	\$0	n/a
2024 Variance Amount & Interest	\$216,114	\$4,576	\$220,690	actual
2025 Variance Amount & Interest	\$214,924	\$14,138	\$229,063	forecast
Total Balance requested for disposition	\$431,038	\$18,714	\$449,753	

- 8 Locate costs for the period of 2021 to 2023 have been recorded in the OM&A
- 9 Underground Locates Program. As per the proposed accounting entries for the GOCA
- 10 Variance Account, the portion of locate costs approved in base rates has been recorded

- 1 in Account 4305 Regulatory Debits and the incremental costs of locates has been
- 2 recorded in Account 1508 GOCA Variance Account for the period of 2024 to 2025.
- 3 Oshawa Power has recorded a debit balance of \$431,038 principal and \$4,576 in interest.
- 4 Oshawa Power forecast interest of \$14,138 for the full year 2025.
- 5 Oshawa Power requests in this Application disposition of a debit balance of \$449,753 of
- 6 Account 1508: Sub-account GOCA Variance Account as a collection from customers,
- 7 including forecast interest to December 31, 2025.

#### 8 Sub-account LEAP EFA Funding Deferral

- 9 On February 12, 2024, the OEB released a letter titled Changes to the Low-income
- 10 Energy Assistance Program Emergency Financial Assistance and Accounting Orders
- 11 (EB-2023-0135). This letter and Rate Order announced changes to the Low-income
- 12 Energy Assistance Program Emergency Financial Assistance (LEAP EFA) to provide an
- 13 appropriate level of assistance to vulnerable consumers and to establish a generic
- 14 deferral account to record incremental LEAP EFA contributions beyond the amounts
- 15 embedded in distribution rates effective March 1, 2024.
- Table 9-12 below outlines the incremental contributions for the period of 2024 and 2025.
- 17 While the 2025 forecast amount has not been audited, Oshawa Power has calculated this
- 18 forecast based upon a demonstrated historical need for this funding including an
- 19 escalation in 2025 to reflect a full year of program changes.

#### **Table: 9-12 LEAP EFA Funding Deferral Balance Calculation**

#### **Incremental LEAP Contributions**

20

LEAP EFA Contributions	2024 Actuals	2025 Forecast
LEAP Funds Disbursed	\$81,744	\$90,187
LEAP Contributions (in rates)	\$37,396	\$38,786
LEAP Contributions to Deferral Account	\$44,348	\$51,401

#### 1508 - LEAP EFA Deferral Acount Balance

Activity	Principal	Interest	Total	Note
2023 Closing Balance	\$0	\$0	\$0	n/a
2024 Variance Amount & Interest	\$44,348	\$447	\$44,795	actual
2025 Variance Amount & Interest	\$51,401	\$3,141	\$54,541	forecast
Total Balance requested for disposition	\$95,749	\$3,587	\$99,336	

- 1 The total balance requested for disposition consists of total 2024 principal and interest
- 2 (including forecast interest) of \$46,249 and total 2025 forecast principal and interest of
- 3 \$53,087. Oshawa Power requests in this Application disposition of a debit balance of
- 4 \$99,336 of Account 1508: Sub-account LEAP EFA Funding Deferral as a collection from
- 5 customers, including forecast interest to December 31, 2025.

#### 6 Sub-account OPEB Deferral Account (Pension Cost Differential Deferral)

- 7 On January 10, 2012, as corrected January 12, 2012, the OEB issued Oshawa Power's
- 8 Rate Order (EB-2011-0073) approving the establishment of Account 1508 Sub-Account
- 9 OPEB Deferral Account to record the cumulative actuarial gains or losses in Oshawa
- 10 Power's post-retirement benefits. The use of this account was approved for continuation
- in Oshawa Power's Decision and Order for 2015 rates (EB-2014-0101) and in Oshawa
- 12 Power's Decision and Order on its 2021 Cost of Service application.
- 13 The OEB's Report on Regulatory Treatment of Pension and Other Post-employment
- 14 Benefits (OPEBs) Costs (EB-2015-0040) issued September 14, 2017, states that utilities
- may propose disposition of an account that captures the cumulative actuarial gains or
- 16 losses in post-retirement benefits in future cost-based rate proceedings if the gains and
- 17 losses that are tracked in this account do not substantially offset over time.
- 18 Oshawa Power did not seek disposition of this sub-account in its 2021 cost of service
- 19 application. As per the OEB's Staff Submission Settlement Proposal issued February 10,
- 20 2021, OEB staff noted that transactions in the account have generally offset over time
- 21 during the period of 2015 to 2019 and agreed that disposition was not warranted at that
- 22 time.

24

Table 9-13 below outlines the principal adjustments for the period of 2020 to 2024.

**Table 9-13: OPEB Deferral Account Principal Adjustments** 

Year	Principal Adjustments	Year end balance	Change over prior year
2020	Actuarial loss recognized	\$3,144,802	\$2,825,144
2021	Actuarial gain recognized	\$1,098,111	\$(2,046,691)
2022	Actuarial gain recognized	\$(4,343,342)	\$(5,441,453)
2023	Actuarial loss recognized	\$(1,622,577)	\$2,720,765
2024	Actuarial gain recognized	\$(4,333,954)	\$(2,711,377)

- 1 Oshawa Power continues to see year over year fluctuations in the account between a
- 2 debit of \$2,825,144 and a credit of \$5,441,453. As the cumulative actuarial gains or
- 3 losses have generally offset during the period, Oshawa Power is not seeking disposition
- 4 of Account 1508 OPEB Deferral at this time.

#### 5 Sub-account OEB Cost Assessment Variance

- 6 In a letter from the OEB dated February 9, 2016, entitled "Revisions to the Ontario Energy
- 7 OEB Cost Assessment Model"; the OEB authorized the establishment of Account 1508 –
- 8 Other Regulatory Assets Sub-Account OEB Cost Assessment Variance. The OEB
- 9 authorized this account to record any material differences between the annual OEB cost
- 10 assessment currently approved in rates and the actual OEB cost assessment amounts
- 11 charged to Oshawa Power that will result from the application of the new cost assessment
- model effective April 1, 2016.
- 13 As per Oshawa Power's 2021 Cost of Service Decision and Rate Order, Oshawa Power
- 14 received approval to dispose of the 2019 balances in this account including carrying
- 15 charges in the amount of \$416,658. Oshawa Power did not seek disposition of 2020
- 16 balances opting to wait for audited balances prior to requesting disposition.
- 17 As at December 31, 2024, Oshawa Power has recorded a debit balance of \$149,372
- principal and \$15,271 in interest. Oshawa Power forecast interest of \$4,899 for the full
- 19 year 2025. The residual principal balance represents the difference between the annual
- 20 OEB cost assessment approved in rates and the actual OEB cost assessment amounts
- 21 charged to Oshawa Power in the year 2020. No further amounts have been recorded in
- this Account 1508: Sub-account OEB Cost Assessment Variance.
- 23 Oshawa Power requests in this Application disposition of a debit balance of \$169,543 of
- 24 Account 1508: Sub-account OEB Cost Assessment Variance as a collection from
- customers, including forecast interest to December 31, 2025.

#### 26 Sub-account Pole Attachment Revenue Variance

- 27 In its letter, Accounting Guidance on Wireline Pole Attachment Charges, dated July 20,
- 28 2018, the OEB created a new variance account, Account 1508: Sub-account Pole

- 1 Attachment Revenue Variance to be used for the recording of incremental revenue arising
- 2 from changes to the pole attachment charge.
- 3 As per Oshawa Power's 2021 Cost of Service Decision and Rate Order, Oshawa Power
- 4 received approval to dispose of the 2019 balances in this account including carrying
- 5 charges in the amount of \$(196,406). Oshawa Power did not seek disposition of 2020
- 6 balances, opting to wait for audited balances prior to requesting disposition. As outlined
- 7 in Table 9-14 below, the 2020 balance was calculated using Oshawa Power's pole
- 8 attachment rate at \$22.35 incorporated in base distribution rates and the OEB approved
- 9 pole attachment rate at \$44.50 resulting in a rate differential of \$(22.15) per pole.
- 10 Oshawa Power's pole attachment rate at \$44.50 was set as part of its 2021 Cost of
- 11 Service application which is incorporated into its base distribution rates. The prevailing
- rate approved by the OEB for the years 2021 to 2025 is outlined in Table 9-14 Column
- 13 "OEB Approved Rate Per Year (Per Pole)".
- 14 Table 9-14 below outlines the calculations used and the resulting incremental revenue by
- 15 year for the period of 2021-2024. The 2025 forecast balance of \$42,080 is based on the
- 16 2025 OEB approved rate of \$39.14 with the known number of poles to which it applies.
- 17 This amount is showing as a variance in Account 1508: Sub-account Pole Attachment
- 18 Revenue Variance under section 9.2.2 Reconciliation of Accounts. While the 2025
- 19 forecast amount has not been audited, it can be determined with reasonable accuracy
- and Oshawa Power submits this balance to be disposed of in this Application.

#### **Table 9-14: Pole Attachment Variance and Balance Calculation**

#### Pole Attachment Revenue Variance Summary 2020

Year	Oshawa Power 2019 OEB Approved Rate (Per pole)	OEB Approved Rate Per Year (Per Pole)	Rate Difference	Number of Poles	Variance Amount	Note	
2020	\$22.35	\$44.50	\$(22.15)	6,684	\$(148,067)	actual	
Total Re	Total Revenue Variance 2020 \$(14

#### 1508 - Pole Attachment Revenue Variance Balance

Year	Transaction	Principal	Interest	Total	Note
2020	Closing Balance	\$(337,715)	\$(5,867)	\$(343,582)	actual
2021	Approved disposition (EB-2020-0048) - 2019 balance	\$189,648	\$6,758	\$196,406	actual
2021	Variance Amount & Interest	-	\$(2,287)	\$(2,287)	actual
2022	Variance Amount & Interest	\$74,638	\$(1,928)	\$72,710	actual
2023	Variance Amount & Interest	\$65,085	\$(2,153)	\$62,932	actual
2024	Variance Amount & Interest	\$52,752	\$742	\$53,494	actual
2025	Variance Amount & Interest	\$42,080	\$2,837	\$44,917	forecast
Total B	alance requested for disposition	\$86,488	\$(1,898)	\$84,590	

- 2 Oshawa Power requests in this Application disposition of a debit balance of \$84,590 of
- 3 Account 1508: sub-account Pole Attachment Variance as a collection from customers,
- 4 including the 2025 forecast variance amount and interest to December 31, 2025.
- 5 Sub-Account Retail Service Charges Incremental Revenue
- 6 The OEB's 2019 Decision and Order on energy retailer service charges established a
- 7 new variance account, Account 1508: Sub-account Retail Service Charges Incremental
- 8 Revenue to be used to record the difference between revenues collected at the previously
- 9 set electricity Retail Service Charges (RSCs) and the revenue collected based on the
- 10 electricity RSCs established effective May 1, 2019.

- 1 As per Oshawa Power's 2021 Cost of Service Decision and Rate Order, Oshawa Power
- 2 received approval to dispose of the 2019 balances in this account including carrying
- 3 charges in the amount of (\$13,129). Oshawa Power did not seek disposition of 2020
- 4 balances opting to wait for audited balances prior to requesting disposition.
- 5 As at December 31, 2024, Oshawa Power has recorded a balance of \$(13,946) principal
- and \$(1,670) in interest. Oshawa Power forecast interest of \$(457) for the full year 2025.
- 7 The principal balance represents the incremental revenue accumulated by Oshawa
- 8 Power in the year 2020.
- 9 Oshawa Power requests in this Application disposition of a credit balance of \$16,074 of
- 10 Account 1508: sub-account Retail Service Charges Incremental Revenue as a refund to
- 11 customers, including forecast interest to December 31, 2025.

#### 12 9.5 Continuation or Discontinuation of Account

#### **13 9.5.1 Group 1 Accounts**

18

- 14 Oshawa Power plans to continue to utilize the existing Group 1 accounts as required per
- the APH and discontinue the Account 1595 relating years 2020 and 2021.
- 16 Table 9-15 below lists all Group 1 accounts which Oshawa Power will continue and
- 17 discontinue on a going-forward basis.

**Table 9-15: Group 1 Accounts to Continue or Discontinue** 

Account Descriptions	Account Number	Continue / Discontinue	Explanation
Group 1 Accounts			
Smart Metering Entity Charge Variance Account	1551	Continue	Remain for future variance accumulation
RSVA - Wholesale Market Service Charge	1580	Continue	Remain for future variance accumulation
Variance WMS – Sub-account CBR Class A	1580	Continue	Remain for future variance accumulation
Variance WMS – Sub-account CBR Class B	1580	Continue	Remain for future variance accumulation
RSVA - Retail Transmission Network Charge	1584	Continue	Remain for future variance accumulation
RSVA - Retail Transmission Connection Charge	1586	Continue	Remain for future variance accumulation
RSVA - Power (excluding Global Adjustment)	1588	Continue	Remain for future variance accumulation
RSVA - Global Adjustment	1589	Continue	Remain for future variance accumulation
Disposition and Recovery/Refund of Regulatory Balances (2020)	1595	Discontinue	Account already disposed; no balance
Disposition and Recovery/Refund of Regulatory Balances (2021)	1595	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
Disposition and Recovery/Refund of Regulatory Balances (2023)	1595	Continue	Remain for future disposal
Disposition and Recovery/Refund of Regulatory Balances (2024)	1595	Continue	Remain for future disposal

#### 1 9.5.2 Group 2 Accounts

- 2 Table 9-16 below lists all Group 2 accounts which Oshawa Power will continue and
- 3 discontinue on a going-forward basis.

**Table 9-16: Group 2 Accounts to Continue or Discontinue** 

Account Descriptions	Account Number	Continue / Discontinue	Explanation
Group 2 Accounts			
Other Regulatory Assets, Sub-account ULO Implementation Cost	1508	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
Other Regulatory Assets, Sub-Account GOCA Variance Account	1508	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
Other Regulatory Assets, sub-account LEAP EFA Funding Deferral Account	1508	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
Sub-Account - OPEB Deferral Account (Pension Cost Differential Deferral)	1508	Continue	Remain available to capture cumulative actuarial gains or losses in post-retirement benefits.
Sub-Account - OEB Cost Assessment Variance	1508	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
Sub-Account - Pole Attachment Revenue Variance	1508	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
Sub-Account - Lost Revenue for Collection of Account and Reconnection Charges	1508	Discontinue	Account already disposed; no balance
Sub-Account - Retail Service Charges Incremental Revenue	1508	Discontinue	Upon final balance cleared to 1595 (2026) sub- account. Discontinue effective January 1, 2026
PILs and Tax Variance for 2006 and Subsequent Years - Sub-account CCA Changes	1592	Continue	Remain available for new legislative tax changes not reflected in OEB approved 2026 PlLs.
LRAM Variance Account	1568	Discontinue	Account already disposed; no balance

#### 5 9.6 Establishment of New Deferral and Variance Accounts

- 6 Per the OEB's Filing Requirements Chapter 2 2025 Edition for 2026 Rate Applications
- 7 (the Filing Requirements), a distributor that seeks an accounting order to establish a new
- 8 DVA must file evidence demonstrating how the Causation, Materiality, and Prudence
- 9 eligibility criteria have been met.

#### 10 9.6.1 Cloud Computing Implementation Costs Deferral Account

- 11 On November 2, 2023, The OEB established a generic deferral account, 1511
- 12 Incremental Cloud Computing Implementation Costs Variance Account, to record the up-
- 13 front costs for implementation of cloud computing solutions. To date, Oshawa Power has
- 14 not recorded any amounts in that account.
- 15 Also in 2023, Microsoft announced that it will no longer develop and release new versions
- of its Dynamics GP Enterprise Resource Planning (ERP) solutions and will discontinue

- 1 technical support by late 2029, which Oshawa Power uses primarily as its Financial
- 2 Information System in support of numerous business functions. To avoid reliability,
- 3 performance and security risks that could manifest from owning and operating an
- 4 unsupported system, Oshawa Power is planning to replace its legacy ERP with a new
- 5 solution. See Oshawa Power ERP Upgrade Business Case (DSP Appendix A in Exhibit
- 6 2).

- 7 The decision to remain with an on-premise approach or migrate to a cloud-based solution
- 8 for the new ERP will be considered and determined when competitive bids are solicited
- 9 in a Request for Proposal (RFP) process scheduled for Q3 2025. This Application
- 10 assumes that cloud-based software will be the optimal solution for Oshawa Power.
- 11 The OEB's 2025 Decision and Order on Cost of Capital & Other Matters (EB-2024-0063),
- issued on March 27, 2025 specified that a utility may propose the treatment of any future
- 13 cloud solutions during the rate term, which could include a new cloud solution deferral
- 14 account. Accordingly, Oshawa Power seeks approval to establish a new distributor-
- 15 specific deferral account, the Cloud Computing Implementation Costs Deferral Account,
- 16 to record cloud computing implementation costs in order to transition from on-premise to
- 17 a cloud-based solution. This requested DVA meets the OEB's requirements for a new
- 18 DVA account based on the following:
  - Causation: Oshawa Power has no choice but to replace its existing ERP, and
    expects that a cloud-based solution may be the most cost-effective solution to
    meet its needs, but has not included associated expenses in this Application given
    an RFP process has not yet been undertaken. If a distributor-specific account is
    not established, Oshawa Power will be required to undertake an on-premise
- solution, even if it is not as cost-effective.
  - Materiality: An estimate of the total cost for this project is not being provided in this Application to protect the integrity of the RFP process, but in comparing with similar projects completed by other organizations, Oshawa Power expects the costs to exceed the required thresholds.
  - Prudence: By virtue of conducting an RFP process, Oshawa Power will identify
    the most cost-effective solution to meet its needs, and ensure recorded costs are

- 1 prudently incurred throughout its implementation in order to meet the OEB's
- 2 prudence requirements for disposition at Oshawa Power's next rebasing.
- 3 The amounts recorded in this account would be reviewed in the next Cost of Service
- 4 application. A Draft Accounting Order is provided in Attachment 9-3.

#### 5 9.7 Lost Revenue Adjustment Mechanism Variance Account

- 6 Per the Filing Requirements, the LRAMVA is a retrospective adjustment designed to
- 7 account for differences between forecast revenue loss attributable to CDM activity
- 8 embedded in rates and actual revenue loss due to the impacts of CDM programs. The
- 9 OEB established Account 1568 as the LRAMVA to capture the difference between the
- 10 OEB Approved CDM forecast and actual results at the customer rate class level.
- 11 Treatment of the LRAMVA is documented in several versions of the CDM Guidelines
- 12 (2012, 2015, 2021) and the 2024 NWS Guidelines.
- 13 In 2024, the OEB replaced the CDM Guidelines with the NWS Guidelines. Distributors
- 14 may request the use of an LRAMVA for distribution rate-funded NWS activities or LIP
- activities, with need to be determined on a case-by-case basis.

#### 16 9.7.1 Disposition of the LRAMVA

- 17 Oshawa Power last disposed of its LRAM Variance Account as part of its 2021 Cost of
- 18 Service application. The OEB Approved disposition of the principal balance of \$144,976
- 19 and interest (including forecast interest) of \$14,271 for a total of \$159,247 claim. This
- 20 balance is related to the previous CDM Guidelines.
- 21 Oshawa Power confirms that LRAM Variance Account does not contain a balance as at
- 22 December 31, 2024.

#### 1 9.7.2 Continuing Use of the LRAMVA for New CDM Activities

- 2 Per the 2024 NWS Guidelines, Section 8, the use of an LRAMVA may be requested by
- 3 distributors for distribution-rate funded NWSs and LIP activities only, with need to be
- 4 determined on a case-by-case basis. If such a request is granted, the distributor may
- 5 propose to make use of the existing generic LRAMVA (Account 1568), or propose to
- 6 establish a new account, with appropriate rationale and accounting details to support their
- 7 proposed approach.
- 8 At the time of this Application, Oshawa Power does not use LRAMVA for NWSs and LIP
- 9 activities outlined in the new NWS Guidelines.

<sup>&</sup>lt;sup>1</sup> Account 1595 sub-accounts are to be allocated to rate classes in proportion to the recovery share as established when rate riders were implemented.

<sup>&</sup>lt;sup>2</sup> The proportion of customers for the Residential and GS<50 Classes will be used to allocate Account 1551.

<sup>&</sup>lt;sup>3</sup> Input the allocation as determined in the LRAMVA model. The associated rate riders will be calculated in the EDDVAR model.

<sup>&</sup>lt;sup>4</sup> If a distributor uses the actual GA price to bill non-RPP Class B customers for an entire rate class, it must exclude these customers from the allocation of the GA balance and the calculation of the resulting rate riders. These rate classes are not to be charged/refunded the general GA rate rider as they did not contribute to the GA balance. If this is the case, this must be noted in the evidence and the proposed allocation methodology must be explained.

<sup>&</sup>lt;sup>5</sup>The revenue amounts which are used to derive the service charges should be used to derive the DVA rate riders. Therefore, these distribution revenues should include the transformer ownership allowance (RRWF tab 13, Rate Design, column O + Y).

This tab allocates the GA balance to transition customers (i.e Class A customers who were former Class B customers and Class B customers who were former Class A customers) who contributed to the current GA balance. The tables below calculate specific amounts for each customer who made the change. The general GA rate rider to non-RPP customers is not to be charged to the transition customers that are allocated amounts in the table below. Consistent with prior decisions, distributors are generally expected to settle the amount through 12 equal adjustments to bills.

Only for rate classes with WMP customers are the Deferral/Variance Account Rate Riders for Non-WMP calculated separately in the table above. For all rate classes without WMP customers, balances in Accounts 1580 and 1588 are included in Deferral/Variance Account Rate Riders calculated in the first table above and disposed through a combined Deferral/Variance Account and Rate Rider.

disposition on a final basis. An explanation should be provided to explain the reason for the change in the previously approved interim balances.  (e.g., if the 2022 balances that were reviewed in the 2024 rate application were to be selected, select 2022)		balances.				

Ins		

1) Determine which scenario above applies (a, bi or bii). Select the appropriate year to generate the appropriate Commodity Accounts Analysis Workform tabs, and information in the Principal Adjustments tab and Account 1588 tab.

#### For exampl

- Scenario a -If 2023 balances were last approved on a final basis Select 2023 and a Commodity Accounts Analysis Workform for 2024 will be generated. The input cells required in the Principal Adjustment and Account 1588 tabs will be generated accordingly as well.
- Scenario bi If 2023 balances were last approved on an interim basis and there are no changes to 2023 balances Select 2023 and a Commodity Accounts Analysis Workform for 2024 will be generated. The input cells required in the Principal Adjustment and Account 1588 tabs will be generated accordingly as well.
- Scenario bii If 2023 balances were last approved on an interim basis, there are changes to 2023 balances, and 2022 balances were last approved for disposition - Select 2022 and Commodity Accounts Analysis Workforms for 2023 and 2024 will be generated. The input cells required in the Principal Adjustment and Account 1588 tabs will be generated accordingly as well.
- 2) Complete the Commodity Accounts Analysis Workform for each year generated.
- 3) Complete the Account 1588 tab. Note that the number of years that require the reasonability test to be completed are shown in the Account 1588 tab, depending on the year selected on the Information Sheet.
- 4) Complete the Principal Adjustments tab. Note that the number of years that require principal adjustment reconciliations are all shown in the one Principal Adjustments tab, depending on the year selected on the Information Sheet.

See the separate document Commodity Accounts Analysis Workform Instructions for detailed instructions on how to complete the Workform and examples of reconciling items and principal adjustments.

## **Account 1588 Reasonability**

## Note 7 Account 1588 Reasonability Test

	Account 1588 - RSVA Power				
		Principal	Total Activity in Calendar	Account 4705 - Power	Account 1588 as % of
Year	Transactions <sup>1</sup>	Adjustments <sup>1</sup>	Year	Purchased	Account 4705
2024	- 1,041,816	666,841	- 374,975	93,014,237	-0.4%
Cumulative	- 1,041,816	666,841	- 374,975		0.0%

#### Notes

- 1) The transactions should equal the "Transaction" column in the DVA Continuity Schedule. This is also expected to equal the transactions in the general ledger (excluding transactions relating to the removal of approved disposition amounts as that is shown in a separate column in the DVA Continuity Schedule)
- 2) Reconciling items and Principal Adjustments reflect the total of Note 7a "Reconciling Items and Principal Adjustments". Reconciling items represent the Items that are recorded in the current period but are related to the prior periods. These items are booked in the GL in the appropriate period and as such do not need to be included in the principal adjustments, However, the reconciling items should be excluded for the purpose of the resonability test for Account 1588.
- 3) Principal adjustments should equal the "Principal Adjustments" column in the DVA Continuity Schedule. Principal adjustments adjust the transactions in the general ledger to the amount that should be requested for disposition.

## Note 7a Reconciling Items and Principal Adjustments - complete for each year where Account 1588 as a % of Account 4705 is greater than + / - 1% of that year's cost of power purchased (Note 7, above)

	item	Amount	Explanation	Principal Adjustment on DVA Continuity Schedule	If "no", please provide an explanation <sup>3</sup>
	item	Amount	Explanation

## Note 9 Principal adjustment reconciliation in current application:

#### Notes

- 1) The "Transaction" column in the DVA Continuity Schedule is to equal the transactions in the general ledger (excluding transactions relating to the removal of approved disposition amounts as that is shown in a separate column in the DVA Continuity Schedule)
- 2) Any principal adjustments needed to adjust the transactions in the general ledger to the amount that should be requested for disposition should be shown separately in the "Principal Adjustments" column of the DVA Continuity Schedule
- 3) The "Variance RRR vs. 2024 Balance" column in the DVA Continuity Schedule should equal principal adjustments made in the current disposition period. It should not be impacted by reversals from prior year approved principal adjustments.
- 4) Principal adjustments to the pro-ration of CT 148 true-ups (i.e. principal adjustment #1 in tables below) are expected to be equal and offsetting between Account 1588 and Account 1589, if not, please explain. If this results in further adjustments to RPP settlements, this should be shown separately as a principal adjustment to CT 1142/142 (i.e. principal adjustment #2 in tables below)

Complete the table below for the current disposition period. Complete a table for each year included in the balance under review in this rate application. The number of tables to be completed is automatically generated based on data provided in the Information Sheet

# Attachment 9 – 3

**Draft Accounting Order** 

# Oshawa PUC Networks Inc. EB-2025-0014

# Account 1508 – Other Regulatory Assets, Sub-account Cloud Computing Implementation Costs Deferral Account

Oshawa PUC Networks Inc. shall establish a new variance account: Account 1508 – Other Regulatory Assets, Sub-account Cloud Computing Implementation Costs Deferral Account. This account is established to record incremental cloud computing implementation costs in order to transition from onpremise ERP to a cloud-based solution.

This account will be disposed in Oshawa PUC Networks Inc. next rebasing application subject to a prudence review of the balance. The account will be discontinued following Oshawa PUC Networks Inc. next rebasing application.

Carrying charges at the OEB's prescribed interest rates will be applied to this sub-account.

Oshawa Power shall establish the following variance accounts effective January 1, 2026:

- Account 1508 Other Regulatory Assets, Sub-Account Cloud Computing Implementation Costs
- Account 1508 Other Regulatory Assets, Sub-Account Cloud Computing Implementation Costs, Carrying Charges

The sample accounting entries for the variance accounts are identified below:

To record incremental cloud computing implementation costs:

DR 1508 Cloud Computing Implementation Costs

CR XXXX OM&A Account(s) associated with cloud implementation costs

To record incremental cloud computing implementation costs incurred and any related offsetting savings, if applicable

DR 1508 Cloud Computing Implementation Costs, Carrying Charges

CR 6035 Other Interest Expense

To record carrying charges on the monthly opening balance in Account 1508 Cloud Computing Implementation Costs
