DECISION AND ORDER

EB-2025-0120

WALKER RESILIENT GENERATION INC.

Application for an Electricity Generation Licence

BY DELEGATION, BEFORE: Brian Hewson
Vice President,
Consumer Protection & Industry Performance

May 1, 2025

DECISION AND ORDER

Walker Resilient Generation Inc. (Walker Resilient) filed an application with the Ontario Energy Board (OEB) on March 11, 2025, under section 60 of the *Ontario Energy Board Act, 1998* (OEB Act) for an electricity generation licence.

This Decision and Order is being issued by the Delegated Authority, pursuant to Section 6 of the OEB Act. The Delegated Authority has considered the application without holding a hearing pursuant to section 6(4) of the OEB Act.

Walker Resilient was formed to participate in the Independent Electricity System Operator's (IESO) Expedited Long-Term Request for Proposals. The IESO selected Walker Resilient's proposal and subsequently executed a contract with Walker Resilient.

The applicant has stated that it will own and operate one generation facility located in Aylmer, Ontario. Construction of the facility is scheduled to begin in April 2025, and it is expected to commence commercial operation by December 2025.

After considering the application and assessing the technical capability and financial viability of the applicant, the OEB finds that it is in the public interest to grant the application and issue an electricity generation licence to Walker Resilient. However, as the applicant has not yet constructed the facility and considering that it does not expect to commence commercial operation until December 2025, the OEB's approval in this Decision and Order shall not take effect until the applicant files written evidence with the OEB confirming completion of construction of the facility and readiness to commence commercial operation. Once the OEB receives the written confirmation an electricity generation licence will be issued to Walker Resilient.

IT IS ORDERED THAT:

1. Subject to paragraph 2 below, the application by Walker Resilient Generation Inc. for an electricity generation licence is approved.
2. The electricity generation licence shall not be issued or take effect until Walker Resilient Generation Inc. advises the OEB, in writing, that the facility described in its application, and summarized in the Decision and Order, has been constructed and is ready to commence commercial operation.

DATED at Toronto May 1, 2025
