**EB-2025-0065 Enbridge Five Year Gas Supply Plan
Pollution Probe Participation & Cost Eligibility Request**

Dear Ms. Marconi:

Pollution Probe received the notice for the above noted proceeding, including the planned Ontario Energy Board (OEB) stakeholder session in May 2025. Pollution Probe hereby requests participation and that it be eligible for the recovery of reasonably incurred costs for its participation. Pollution Probe represents a direct consumer and policy interest related to the issues outlined in this proceeding. Pollution Probe was a participant in the most recent Enbridge Gas Supply Plan review and recommended the approach that the OEB is applying for EB-2025-0065. The OEB notice references that OEB Staff have developed a draft case schedule which we assume would be shared with those participating in the stakeholder session. We have assumed that OEB Staff would also include a draft Issues List. It is common to allow parties to submit comments on the draft Issues List and we support that type of approach in this proceeding.

Pollution Probe is a frequent participant in OEB consultations and proceedings and a copy of our current Annual Filing can be found on the Board's website at the following location:

<https://www.rds.oeb.ca/CMWebDrawer/Record/893229/File/document>

Pollution Probe is a not-for-profit charitable organization. We receive individual donations as well as funding for consumer and research projects, such as on community energy planning, future of natural gas and regulated utility innovation, from a variety of public and private sources. Without the prospect of an award of costs, Pollution Probe's ability to participate in the consultation process would not be possible.

Pollution Probe has been an active and valuable participant in OEB proceedings and consultations and will continue to coordinate its activities, where appropriate, with other parties which represent consumer, municipal and environmental interests in Ontario.

Pollution Probe respectfully requests your acceptance of the request to participate and confirmation that it will be eligible for its costs.

Notice

Pollution Probe requests that further communications with respect to this matter be sent to:
