

# NOTICE OF A RATE HEARING

## Hydro Ottawa Limited has applied to increase its electricity distribution rates and other charges

If the application is approved as filed, a typical residential customer and a typical general service customer of Hydro Ottawa Limited (Hydro Ottawa) would see the following increase effective January 1, 2026:

<b>Residential (750 kWh)</b>	<b>\$6.08 per month</b>
<b>General Service less than 50kW (2,000 kWh)</b>	<b>\$14.57 per month</b>

Other customers, including businesses, will also be affected.

Hydro Ottawa has also applied for approval:

- To establish new rate riders to dispose of balances in regulatory deferral and variance accounts.
- To establish three new deferral and variance accounts.
- To finalize the existing interim standby rates.
- To make changes to certain miscellaneous charges, including changes to generation charges and a utility-specific Standard Supply Service charge.
- Of a custom scorecard and custom rate framework to set distribution rates effective for the period from January 1, 2027 to December 31, 2030. The proposed rate framework is based on a formula that is tied to inflation and other factors intended to promote efficiency.

It is important to review the application carefully to determine whether you may be affected by the proposed changes.

### YOU SHOULD KNOW

There are three types of OEB hearings: oral, electronic and written. The applicant has applied for an oral hearing. The OEB is considering this request. If you think a different hearing type is needed, you can write to us to explain why.

During this hearing, we will hear questions and arguments from participants about this case. We will also hear questions and arguments from participants that have registered as Intervenor. After the hearing, we will decide whether to approve the application.
