Increase from  $50.80 + 6.08 = 56.88$ , this is a 12% increase. Why should Hydro Ottawa get a 12 % increase.

I am retired on a fixed income pension. CPI was only 2.6%, I only get 50% of CPI so a 1.3% increase in my pension.

Every year I have to cut my expenses to pay for outrageous increase by big companies, Hydro Ottawa would fit this category. Where is the accountability for them to control their expenses.

Property Taxes went up 3.9 %, my insurance went up 14% We are being taxed out of our homes. If I have to sell my home, I won't be able to afford the outrageous rent in this city.

Please only allow Hydro Ottawa a CPI increase.
