Jennifer Schurer

-- Do you reside in the impacted service area? -- Yes

-- Comments --

Request for the Ontario Energy Board to deny increase due to the following:

-existing service is poor, several outages per year -existing service is expensive, cost of living high -lack of transparency on how funds will be used -the average citizen does not have time to review and respond to these inquiries as they are busy working and/or raising their families. The OEB has a responsibility to ensure Hydro Ottawa is not taking advantage of the rate payers.
