

NOTICE OF A HEARING

Hydro One Networks Inc. has applied to the Ontario Energy Board to expropriate interests in certain lands between the town of Atikokan and the town of Dryden in Ontario

In August 2024, the Ontario Energy Board (OEB) granted Hydro One Networks Inc. (Hydro One) leave to construct and operate new 230 kilovolt (kV) transmission facilities in the northwest Ontario regions of Thunder Bay, Rainy River, and Kenora.¹

The Project comprises two phases. Phase 1 consists of constructing a new 230 kV double-circuit transmission line that spans approximately 190 km to connect the existing Lakehead TS with the existing Mackenzie TS. Phase 2 consists of constructing a new 230 kV single-circuit transmission line spanning approximately 170 km from the existing Mackenzie TS to the existing Dryden TS. Phase 2 is expected to be in-service by December 2027.

Hydro One is asking the Ontario Energy Board (OEB) for permission to expropriate interests in certain lands associated with Phase 2 of the Project.²

Hydro One has identified you as someone who owns or has an interest in part of the lands that Hydro One is seeking permission to expropriate for Phase 2 of the Project. A copy of the property description and survey maps showing the lands that Hydro One is asking to expropriate are attached to this Notice.

Hydro One's application is about the expropriation of certain specific lands only. It is not about compensation. The OEB will consider the public interest when making any order authorizing Hydro One to expropriate land. The OEB does not have the authority to determine the amount of compensation payable. If the OEB authorizes Hydro One to expropriate and the parties do not agree upon compensation, then the compensation must be determined under the *Expropriations Act* or by the Ontario Land Tribunal.
