

-- Name --

Krista Sandusky

-- Do you reside in the impacted service area? -- Yes

-- Comments --

My partner and I do not consume much each month but we feel these cost increases are unjustified, especially for low consumption households who are struggling to pay for bills, rent and food on the table. This is an 11% increase where not only inflation is supposed to be around 3% nowadays and our incomes are set to rise by just 1.7% this year.
