Detlev Debertin

-- Do you reside in the impacted service area? -- Yes

-- Comments --

I disapprove of Hydro Ottawa to increase the distribution rates by \$20.65 per month as this translates to an increased cost of \$247.80 . Being retired, I live on a fixed income and I have to count every penny. I'm already very careful with the energy I use so I feel this cost increase as a slap in the face.
