

-- Name --

Cynthia Laroche

-- Do you reside in the impacted service area? -- Yes

-- Comments --

In regards to the application to elevate, almost double and lessen the amount of energy delivered; I am very much against this, our bills are high enough and to increase that would leave a lot of families struggling even more then they currently are. This would decimate them. Please do not go forward with this, the only thing this serves is the pockets of the people who are controlling this. Absolutely appalling.
