Shawn Ferguson

-- Do you reside in the impacted service area? -- Yes

-- Comments --

More rate increases? Blaming inflation? My work doesn't give me a raise every time inflation is mentioned or increases. Yet i'm (customers) are expected to pay more for the exact same service we've always been provided? I'm sure it's no big deal for the Hydro execs who's compensation packages are in the millions, but the average person is already getting "inflationed" by every business out there...

I vote no.
