Dear Ritchie Murray:

**Re: Ontario Energy Board (OEB)  
DSC Amendment for NWS Incentive  
Consumers Council of Canada (CCC) Cost Eligibility Request  
OEB File No. EB-2025-0083**

---

I am a consultant for the Consumers Council of Canada (CCC). I have been instructed by my client to indicate our intent to provide comments regarding the OEB's proposed amendments to the Distribution System Code (DSC) regarding a margin on payment incentive mechanism for the use of third-party distributed energy resources as non-wires solutions. CCC is a public-interest entity which represents the interests of residential consumers in Ontario.

On November 14, 2024, CCC filed with the Ontario Energy Board, pursuant to Rule 22.03 of the Ontario Energy Board's Rules of Practice and Procedure, a document describing CCC, its mandate and objectives, membership, the constituency represented, and the types of activities CCC carries out. In addition, we provided a list of the individuals authorized to represent CCC in OEB proceedings.

CCC intends to ask for an order of costs in this process. CCC has participated in many proceedings and consultations over a long period of time. In all of those proceedings and consultation processes CCC has been recognized as being eligible for an award of costs. In the absence of an award of costs CCC would be unable to participate in this consultation process.

Copies of all correspondence related to this consultation process be sent to the following:

Please let us know if any further information from CCC is required at this time.
