**Re: Natural Gas Demand Side Management – Technical Resource Manual
Update – OEB File No. EB-2022-0295**

The Ontario Energy Board (OEB) has posted the updated Technical Resource Manual (TRM). The update was completed by the OEB's Evaluation Contractor as part of its evaluation process of the 2023 program results. The revised TRM includes updates to input assumptions used to calculate natural gas savings resulting from Enbridge Gas Inc.'s prescriptive demand side management (DSM) programs. The updated TRM assumptions should be used when calculating savings from the 2024 DSM program year.

Questions about the TRM should be directed to Josh Wasylyk at josh.wasylyk@oeb.ca. The OEB's toll-free number is 1-888-632-6273.

Yours truly,

Ritchie Murray
Acting Registrar
