Issues:

In its application, Hydro Ottawa suggests that the structural movement occurring across the global energy sector, in which renewable energy-based systems are replacing fossil fuel-based energy systems, is accelerating rapidly. Hydro Ottawa's business plan and application are based, in part, on this assumed pace of energy transition and the resulting impact on natural

gas use within the City of Ottawa. These matters are of direct interest to the current and future operations Enbridge Gas.

Policy Interests:

Enbridge Gas has a direct interest in all matters of jurisdiction, substance and procedure in the regulation of public utilities, and in any decision of the Ontario Energy Board, which may create a precedent affecting Enbridge Gas' operations and/or rates.
