Dear Ms. Marconi,

EB-2024-0319 – Hydro One Networks Inc. s.99 Waasigan Phase 1 Expropriation Application – Post-Decision Update on Approval of Expropriation Land Plans and Certificate of Approval – Update on Voluntary Settlement of Properties

Hydro One Networks Inc. (“Hydro One”) is submitting materials and information in accordance with the Conditions of Approval of the Ontario Energy Board (“OEB” or “Board”) Decision and Order in this proceeding, dated June 10, 2025 (“Decision and Order”) for Phase 1 of the Waasigan Project (“the Project”).

Consistent with Condition 1 of the Decision and Order, Hydro One is providing an update to the OEB regarding negotiated settlements reached for the Project. Hydro One is pleased to confirm that it has closed voluntary agreements with landowners of four of the properties over which expropriation relief was granted. As such, Hydro One no longer requires utilizing the granted expropriation relief for these four properties.¹

In accordance with Condition 2, Hydro One encloses for approval and endorsement final expropriation plans² for eight of the remaining properties identified in the application as: SH01, SH02, TB01, TB44, TB60, TB64, TB106, and TB149. The Certificate of Approval for the OEB’s endorsement is also enclosed. If approval is granted, Hydro One intends to immediately deposit the approved final expropriation plans and the Certification of Approval with the Land Registry Office. Hydro One kindly requests the OEB provide approval of these documents at its earliest convenience such that it can then move forward with the registration process.

Hydro One can also confirm that it has reached voluntary agreements with landowners of two properties, one of which is TB60 (listed above), the other is TB16. Both property transactions remain subject to closing conditions. Currently, Hydro One is not filing a final expropriation plan for OEB approval and endorsement over the TB16 property. If that transaction does not close in a timely manner, Hydro One will then file a final

¹ These properties were identified as TB04, TB73, TB80, and TB155 in the application.

² Please note, one plan includes two properties (SH01 and SH02), such that the total number of properties which have final expropriation plans submitted total eight.

expropriation plan for the property. Hydro One will in any event provide an update to the OEB regarding the closing status of these properties in due course.

Lastly, consistent with Condition 7 of the Decision and Order, Hydro One provides the name and contact information of the designated employee who will be responsible for the fulfillment of the conditions of the Decision and Order.
