Dear Mr. Murray:

**Re: Enbridge Gas Inc. (“Enbridge Gas”, or the “Company”)  
EB-2022-0335 – IRP Pilot Project Application  
EB-2025-0124 – OEB’s Review Motion of IRP Pilot Project Decision  
Enbridge Gas Request Re: Scope of OEB’s Review Motion**

---

We represent Enbridge Gas.

On March 27, 2025, the OEB issued its Notice of Review on the OEB’s Own Motion of the IRP Pilot Project Decision that had been released on the same date.

On April 15, 2025, we wrote to the OEB asking for confirmation about the scope of the OEB’s Review Motion, and requesting a stay of aspects of the Decision that the OEB had included in its Review Motion. As noted in that letter, the Motion involves the review of issues that Enbridge Gas intends to actively participate in.

We write now to inquire as to the status of a Procedural Order setting out the process and scheduling of next steps for the OEB’s Review Motion. As explained in our April 22, 2025 letter, Enbridge Gas is advancing its SLH IRP Pilot Project as approved by the OEB, except for the direction to redirect funds for advanced gas technologies to electrification IRPAs, which is expressly at issue in the OEB’s Review Motion. However, until further direction is provided Enbridge Gas is not including advanced gas technologies in the SLH IRP Pilot Project.

Yours truly,

AIRD & BERLIS LLP

David Stevens
